Sub: Institutional funding of the research proposals submitted by RVIM faculty-2024

Dear Sir,

This is to your kind information that according to Point 11 of the Research Promotion Policy of RVIM, effective from 01.04.2022 (attached), we rolled out call for proposal in the month of March 2024 for the internal faculty of RVIM to submit research proposals within a month. Last years approval and research projects progress is attached for your reference.

The Centre for Research & Consultancy received four research proposals. We invited two reviewers Dr. Elangovan N, Christ University on 20th April and Dr. Rizwana M, Associate Professor, Ramaiah Institute of Technology on 25th March 2024 in the institution for a double blind review at RVIM where the reviewer names and project investigator's (PI) and Co- project investigator's (Co-PI) name was kept anonymous to each other to avoid any kind of bias. Both the reviewers gave a detailed suggestions on the proposals along with the comments and final rating on overall quality of the projects out of 10.
The entire review process was completed in the institution itself with identity of faculty masked and the reviewers gave detailed feedback and suggestions. Attached is the average rating out of 10 provided by the reviewers for each proposal on the overall quality of the proposal.

As all the proposals are rated above 5.0 and worth pursuing further, we seek your approval in principle to grant Rs. 184500 towards releasing the funds to selected research proposals in a phased manner.

Forwarded to Honorary Secy Sir, RSST

We called for research proposals by the faculty (II round) who didn't submit the proposals in the I round. In response to that we received 5 proposals approved by the centre for Research & consultancy seeking funds to the tune of Rs. 1,84,500/- (details enclosed). We will release the funds as and when required in a phased manner. In the first round we approved six proposals and the faculty are working on the same. Progress details are enclosed.

For your kind consideration and approval.

Yours sincerely,

Dr. Padmalini Singh
