LEARN WHAT AI CANNOT TEACH YOU – BEYOND ALGORITHMS: SKILLS THAT DEFINE HUMAN EXCELLENCE	
Date: 22 April 2026	**Venue:** Conference Hall, RV Institute of Management, Bengaluru
Time: 10.00 am to 12.00 pm	**Event : Industry Expert Talk**
No. of Participants: 157	**Event Coordinators: Dr. Jahnavi M, Prof. Nagasubba Reddy**

Objectives of the event:

The expert talk was organized to create awareness among students about the evolving role of human capabilities in an increasingly technology-driven world. While Artificial Intelligence is transforming industries and workplaces, the programme emphasized the importance of uniquely human skills that continue to remain essential for personal and professional success.

The objectives of the event were:

1. To help students understand the changing relationship between human intelligence and artificial intelligence.
2. To highlight the significance of critical thinking, creativity, emotional intelligence, and ethical decision-making in the AI era.
3. To provide industry perspectives on future career opportunities and employability requirements.
4. To encourage students to develop leadership qualities, adaptability, and problem-solving abilities.
5. To bridge academic learning with practical industry expectations.

Brief description of the event

RV Institute of Management organized an expert session titled "Learn What AI Cannot Teach You – Beyond Algorithms: Skills That Define Human Excellence" on 22 April 2026 in the Conference Hall. The programme was designed to help students understand the opportunities and challenges emerging from rapid advancements in Artificial Intelligence and automation.

The session brought together distinguished industry leaders, entrepreneurs, and global professionals who shared their experiences and perspectives on the future of work, leadership, innovation, and human-centered skills. The speakers emphasized that while AI is capable of processing vast amounts of information and automating repetitive tasks, qualities such as empathy, creativity, ethical judgment, resilience, collaboration, and visionary leadership remain uniquely human strengths.

The experts discussed how organizations across the world are increasingly seeking professionals who can combine technological understanding with strong interpersonal and strategic capabilities. The session highlighted the growing importance of adaptability, critical thinking, communication skills, and continuous learning in a dynamic business environment.

Students gained valuable insights into the changing employment landscape, emerging career opportunities, and the competencies required to remain relevant in the digital economy. Real-world examples from international education, entrepreneurship, engineering, innovation, and technology sectors provided participants with practical exposure to global trends.

The speakers also encouraged students to view Artificial Intelligence as an enabler rather than a replacement for human potential. Discussions focused on how future professionals can leverage technology while preserving creativity, ethical responsibility, and meaningful human interactions.

The interactive question-and-answer session enabled participants to engage directly with the experts and gain deeper insights into leadership, entrepreneurship, innovation, employability, and future workplace expectations.

The programme concluded with a vote of thanks, expressing appreciation to the resource persons, faculty members, organizers, and participants for contributing to a meaningful learning experience.

Brief profile of the Speakers:

1. **Dr. Manish Malhotra, Founder & CEO, FutrEd Innovation Studios, United Kingdom**

Dr. Manish Malhotra is a globally recognized education entrepreneur and Founder & CEO of FutrEd Innovation Studios. He has extensive experience in building partnerships between universities and industry to enhance employability, leadership development, and curriculum innovation. Holding a Ph.D. and Master of Engineering from RMIT University, he has also completed executive education programmes at Oxford Saïd Business School and London Business School. His work focuses on preparing institutions and learners for future workforce requirements.

2. **Russell Merz, Technical Advisory Panel Member**

Mr. Russell Merz is a senior engineering and business executive with more than three decades of international experience across automation, robotics, energy systems, sustainability, and digital transformation. He has provided leadership for large-scale projects across multiple countries and has extensive expertise in innovation, environmental sustainability, and organizational transformation. His insights provided participants with a global perspective on technology-enabled industries and future workforce skills.

3. **George (Grzegorz) Lipinski, Entrepreneur and Global Education Innovator**

Mr. George Lipinski is an internationally recognized entrepreneur with extensive experience in education services, entrepreneurship, digital platforms, and business innovation. He founded several successful ventures and played a significant role in creating global educational solutions that connect students with institutions and career opportunities. His entrepreneurial journey and global exposure offered valuable lessons on innovation, adaptability, and leadership.

Even Summary:

Students appreciated the practical insights provided by the speakers and found the discussions highly useful in understanding future workplace requirements. Many participants highlighted that the session broadened their understanding of the complementary roles of human intelligence and artificial intelligence.

Event Outcome:

The programme achieved the following outcomes:

1. Students developed a deeper understanding of the role of human capabilities in the age of Artificial Intelligence.
2. Participants gained awareness of future workplace trends and changing employer expectations.
3. The session enhanced knowledge regarding critical thinking, creativity, leadership, and emotional intelligence.
4. Students learned the importance of adaptability and continuous upskilling in a rapidly evolving business environment.

5. Participants gained valuable insights into entrepreneurship, innovation, and global career opportunities.
6. The programme strengthened industry-academia interaction and provided practical exposure to contemporary challenges.
