Subject: Schedule of Case Study workshop

To: Uma Sharma &lt;umasharma.rvim@rvei.edu.in&gt;

Dear ma'am

Some Pointers for tomorrow's Case Study workshop

- 1) Both the case study are Ideally a 1 page Caselet (But loaded with content)
- 2) Students will be shared the case as a File transfer through zoom before dividing them into break away rooms because we want the students to be able to process information as and when given to them and not have enough time to ruminate. Also as these are caselets which are independent in nature but interpretation can be drawn wrt to their Domain

Learning Outcomes expected

- 1) A realisation in students that Information is never Superficial and often deeper level of application of Knowledge the key to evaluating Pros and cons
- 2) Subject knowledge is of paramount importance in any analysis

Schedule

- 1) Importance of CAse Study based learning, Difference between Data and Information, and Sharing of cases as a file transfer
- 2) dividing into 8 or 9 break away rooms
- 3) Each room having a independent discussion on **CASE 1** for 25 to 30 minutes which includes 5 minutes to read the case
- 4) All Teams brought back to main room and a Open forum for 15 minutes
- 5) Debriefing and Different avenues that the case could have been interpreted
- 6) Process 3 4 and 5 repeated for **2nd Case**

Thanks and regards

Ramani Venkat

Respected Ms. Payal Jindal Ma'am,

### Warm Greetings from Touchstone Foundation!

**As discussed below are the details with regard to students' online program, Kindly review the same and let us the dates when we can schedule the session.**

Touchstone Foundation, a charitable Trust of ISKCON Bangalore, runs a Youth Empowerment Club aimed at crystallizing the formative phase of the younger generation with key values that guide them throughout their lives. Some of the vital and practical knowledge has been inherited from the time tested Vedic wisdom and is woven into methodic workshops.

In the last 20 years, the Club has organized many workshops and seminars assisting youngsters to apply Vedic wisdom to current world realities. Solutions are provided to difficult problems that youth encounter in their daily lives, such as how to manage stress, how to improve memory and concentration, how to get rid of bad habits, how to excel in life, etc. The youngsters are also taken through personality enrichment courses to explore their deeper selves and encourage them to become more reflective and introspective—a real need in today's chaotic times.

To help students in this difficult situation, our experts have designed 2 very informative and transformative programs, the details are as follows, and College can choose either of the programs;

1. **“Setback to Comeback”** - To assist the students to lift their morale and boost their confidence in the current situation of crises and setbacks, to mould their mindset and perspective towards a new style of learning, inspire to reflect on failures and see opportunity in the setbacks and progress towards purpose-oriented life.

**45 mins session.**

2. **“Make it or Break It”** – As it is rightly said “Idle Mind is a devil's workshop”, this current crisis has blessed everyone with enough time, and students should ideally utilize this opportunity to work on the action which would bring in great transformation. “Make it or Break it” Workshop offers some of the most powerful & practical tools and techniques to acquire and inculcate productive habits that can transform one's life and bring out the best version of an individual

**Series of 5 Session of 15 Mins each.**

Experts from the industries and academics would be presenting this session to students.

**After the successful completion of the session, students would be rewarded with an E-certificate that carries a lot of value as it's from an international organisation.**

We request you to help us organise this session so that students can be immensely benefited.

**Regards**

**Praveen Krishna**

- IRS Form 1065 is used to declare profits, losses, deductions, and credits of a business partnership for tax filing purposes.
- LLCs, foreign partnerships with income in the U.S., and nonprofit religious organizations.
- Schedule K-1. U.S. Internal Revenue Code ,

### Take away key factors for students:

- ❖ **Power B sessions** were handled by Prof. Priya Jain and Prof. Nagasubba Reddy from RVIM, Bengaluru. Power BI is a business analytics service by Microsoft. It aims to provide interactive visualizations and business intelligence capabilities with an interface simple enough for end users to create their own reports and dashboards.

As part of EY ITTC course out students have undergone the course on Power BI. During the course they learned how to make use of different charts and visuals to make the reports more attractive for example the use of KPI's, Heat Map, Line charts, Ribbon chart and many more. Several financial analyses were also done by students using Power BI like calculation of moving average of the stock price, evaluating the stock on the basis historical prices and also predicting the future price of the stock. Students have also learned how to make different tables and build relationship between each table.

At the end of the course students were asked to make interactive dashboards and submit as a part of evaluation process.

- ❖ **US Corporate Tax sessions** were handled by Prof. Dileep, Finance department from RV Institute of Management, Bengaluru for 3<sup>rd</sup> sem. MBA students (2019-21 batch)

**C Corporations:** C corps is separately taxable entities. They file corporate tax return (Form 1120) and pay taxes at corporate level. They also face the possibility of double taxation if corporate income is distributed to business owners as dividends which are considered personal taxable income. Corporate income tax is paid first at the corporate level and again at the individual level on dividends.

**S Corporations:** S Corps is pass-through taxation entities. They file an informal federal return (Form 1120S), but no income tax is paid at the corporate level. The profits/losses of the business are instead "Passed-through" to the business and

reported on the owners' personal tax returns. Any tax due is paid at the individual level by the owners.

- ❖ **Individual Taxation:** The students learnt United States tax on its citizens and residents on their worldwide income. Non-resident aliens are taxed on their US-source income and income effectively connected with a US trade or business (with certain exceptions). For individuals, the top income tax rate for 2021 is 37%, except for long-term capital gains and qualified dividends. Dividend income is indeed taxable. The tax rate on dividends, however, is dependent on a number of factors, including individual taxable income, the type of dividend, and the kind of account that holds the investment. This means that the amount of the tax that individual owe on dividends can vary. Qualified dividends are taxed at 0%, 15%, or 20%, depending on individual income level and tax filing status. Ordinary (non-qualified) dividends and taxable distributions are taxed at individual marginal income tax rate, which is determined by individual taxable earnings.
- ❖ **Partnership taxation:** students learnt the purposes of the U.S. Federal income tax are codified according to Subchapter K of Chapter 1 of the U.S. Internal Revenue Code (Title 26 of the United States Code). . Flow-through taxation means that the entity does not pay taxes on its income. Instead, the owners of the entity pay tax on their "distributive share" of the entity's taxable income, even if no funds are distributed by the partnership to the owners. Federal tax law permits the owners of the entity to agree how the income of the entity will be allocated among them, but requires that this allocation reflect the economic reality of their business arrangement, as tested under complicated rules.

**Feedback of Students:** All participants enrolled and participated have appreciated certification course. They wished to have more and more sessions like this to share experiences and knowledge pertaining to US Taxation and felt it as an informative course.

#### DESCRIPTION ABOUT THE CONTENT OF CERTIFICATE COURSE.

Srimad Bhagavad Gita is one of the greatest legacies of ancient India to the world at large. Forming part of the great Indian epic -Maha Bharata,' it is a dialogue between Lord Krishna and the great archer Arjuna which took place on the great battlefield of Kurukshetra where a battle was about to begin between two sections of the same family. The Bhagavad Gita was delivered by Sri Krishna to motivate Arjuna, who got mentally disturbed upon seeing those near and dear ones whom he had to kill in the war of Kurukshetra, Lord Krishna told him to perform his duty. In the eighteen chapters of Bhagavad Gita, one discovers tremendous management guidelines which are applicable even today.

In this certification course in Management Lessons from Bhagavad Gita, the following aspects are covered.

1. Self-management
2. Conflict management
3. Stress management
4. Anger management
5. Transformational leadership
6. Motivation
7. Goal setting

Many other aspects of management which can be used as a guide to increase HRM (Human Resource Management) effectiveness are also focused.

Management is a process of aligning people and getting them committed to work for a common goal. The critical question in all managers' minds is how to be effective in their job. The answer to this fundamental question is found in the Bhagavad Gita, which repeatedly proclaims that "you must try to manage yourself." The reason is that unless a manager reaches a level of excellence and effectiveness, he or she will be merely a face in the organisation

Management in principle teaches us to become better leaders. As a manager one has to delegate the work among the subordinates effectively and motivate them to do their work. The Manager's functions can be briefly summed up as under:

The Takeaway

Based on these illustrations from the Gita, Students can take away some simple yet powerful lessons.

- 1) Developing a good sense of neutrality: This is an important prerequisite for discharging one's work very effectively.
- 2) Embracing the overarching principle of karma yoga will have to be the alternative paradigm for improving the quality of management in organizations.
- 3) Forming a vision and planning the strategy to realise such vision.
- 4) Cultivating the art of leadership
- 5) Establishing institutional excellence and building an innovative organisation.
- 6) Developing human resources.
- 7) Team building and teamwork
- 8) Delegation, motivation, and communication and Reviewing performance and taking corrective steps whenever called for.

If students can take these Eight important lessons from the Gita, they can not only build an alternative paradigm of management but also succeed reasonably in the practice of management.
