

Internship

Business Immersion Program involves experiential learning based on observation and first-hand encounters with the business firm. The program is designed to gain a preliminary understanding of an organization, its functions, process and policies. The program is a simulation of real work environment and expects the students to experience the rigor of professional environment in form and substance. It also develops technical, social and communication skills among students.

The purpose of Business Immersion Program is to develop required skills and competencies to emerge as a good business leader and thinker. This could involve data analysis /organization study/ extension work or exploration of an idea or its implementation. The study can also be related to live management problems/issues concerning the organization.

Each student should undertake the Business Immersion Program for 2 months' period, finalize a firm, visit the firm on regular intervals, observe the business activities, collect data and make a report on the organization. The students have to look for firms which are well established, have good number of employees, registered firms that are developing and sustainable.

This Immersion Program will be under the guidance of Internal Faculty member as well as external mentor from the firm. Generally, a group of 10 students will be allotted to a mentor/guide who will be the lead the Business Immersion Program. The students will interact and meet the guide on regular intervals and explain the progress and the future plans. Provision has to be made to create a social interaction platform like WhatsApp or Telegram groups for the entire team. Every Saturday the students will present their progress to the guide at the institute. The students will prepare Microsoft Power point presentation on the data collected and present the same during their Saturday meeting. The Guide will evaluate the progress and suggest plans for improvement.

Immersion Objectives:

- Familiarize with various materials, processes, products and their applications along with relevant aspects of quality control in the organization.
- Learn to apply the technical knowledge in real industrial situations and gain experience in writing reports
- Promote academic, professional and/or personal development of students
- Understand the social, economic and administrative considerations that influence the working environment of industrial organizations

- Understand the psychology of the workers and their habits, attitudes and approach to problem solving.

Immersion Outcome (IO):

After successful completion of this immersion, the student will be able to facilitate the transition from traditional learning to problem based learning; Conduct independent study of organization and industry dynamics, cross functional areas, business functions and realities; Obtain analytical skills, cultivate relevant industry interaction; successfully evaluate and present their perspectives of business environments.

Benefits of Business Immersion:

- An opportunity to get hired by the Industry/ organization and get practical experience in an organizational setting.
- Excellent opportunity to see how the theoretical aspects learned in classes are integrated into the practical world.
- It will help students to decide if any industry and any profession is the best career option to pursue.
- Opportunity to learn new skills, practice communication, teamwork skills and supplement knowledge.
- Opportunity to learn strategies like time management, multi-tasking etc. in an industrial setup.
- Opportunity to meet new people and learn networking skills
