ANALYSIS OF ALUMNI FEEDBACK 2019-20

1. Were you able to get the expected depth of course content?

Yes

No

Analysis:

- 93% of the Alumni were able to get the expected depth of the course.
- 7 % of the Alumni were not able to get the expected depth of the course.

Interpretation: From the above analysis we infer that majority of the Alumni were able to get the expected depth of the course.

2. Are you satisfied with the extent of coverage of course?

High

Moderate

Low

Analysis:

- 81% of the Alumni are satisfied to the greater extent towards the coverage of the course.
- 14% of the Alumni are satisfied to the moderate extent towards the coverage of the course.
- 5% of the Alumni are satisfied to the lower extent towards the coverage of the course.

Interpretation:

From the above analysis it can be inferred that majority of the Alumni are satisfied towards the coverage of the course.

3. Rate the effort made by the faculty in delivering lectures?

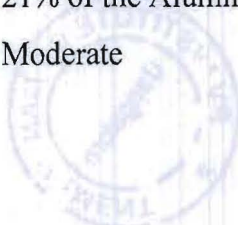

High

Moderate

Low

Analysis:

- 69% of the Alumni rated the efforts made by the faculty in delivering lectures as High
- 21% of the Alumni rated the efforts made by the faculty in delivering lectures as Moderate

- 10% of the Alumni rated the efforts made by the faculty in delivering lectures as Low

Interpretation:

From the above analysis it can be inferred that majority of the Alumni rated the efforts made by the faculty in delivering lectures as High.

4. To what extent do you think you can apply the knowledge acquired in course at your work Place/real life situations?

- Best Better Good Average

Analysis:

- 41% of the Alumni responded that they implement the knowledge acquire in this two years course at their work place as best
- 39% of the Alumni responded that they implement the knowledge acquire in this two years course at their work place as better
- 12% of the Alumni responded that they implement the knowledge acquire in this two years course at their work place as good
- 8 % of the Alumni responded that they implement the knowledge acquire in this two years course at their work place as average

Interpretation:

From the above analysis it can be inferred that most of the Alumni could apply the knowledge acquired in course at your work Place/real life situations

5. Did you have value added inputs along with the curriculum?

- Yes No

Analysis:

- 90% of the Alumni agreed that they got value added inputs along with the curriculum.
- 10% of the Alumni agreed that they did not got value added inputs along with the curriculum.

Interpretation:

From the above analysis it can be inferred that most of the Alumni got value added inputs along with the curriculum.

6. What is the contribution level of institution towards your improvement?

- Higher Extent Moderate Extent Lower Extent

Analysis:

- 59% of the Alumni responded that institute contributed to the higher extent in their improvement.
- 31% of the Alumni responded that institute contributed to the moderate extent in their improvement
- 10% of the Alumni responded that institute contributed to the lower extent in their improvement

Interpretation:

From the above analysis most of the Alumni accepted that the contribution level of institution towards their improvement is high.

7. How was the course content?

- Interesting Challenging Developed Interest

Analysis:

- 58% of the Alumni responded that the course content was interesting
- 22% of the Alumni responded that the course content was challenging
- 20% of the Alumni responded that the course content developed interest

Interpretation:

From the above analysis it can be inferred that most of the Alumni felt that course was more interesting.

8. How effective is the teaching by the faculty?

- Best Better Good Average

Analysis:

- 75% of the Alumni rated that RVIM faculty as Best
- 9% of the Alumni rated that RVIM faculty as Better
- 11% of the Alumni rated that RVIM faculty as Good
- 5% of the Alumni rated that RVIM faculty as Average

Interpretation:

From the above analysis it can be inferred that many of the Alumni rated faculty as best.

9. Were you able to get learning values in terms of

- Knowledge Professional Skills Life skills

Analysis:

- 75% of the Alumni responded that they gained knowledge
- 18% of the Alumni responded that they gained Professional skills
- 8% of the Alumni responded that they gained Life skills

Interpretation:

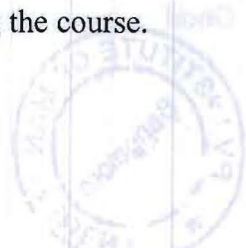

From the above analysis it can be inferred that most of the Alumni gained knowledge

10. Which of the benefits mentioned below are gained by you in this two years course? (Tick more than one, if applicable)

- Communication skill Intra-personal and Inter personal skill
- Managerial skills Level of confidence
- Any other: _____

Analysis:

- 80% of the alumni responded towards the communication skills development in their ward during the course.
- 60% of the alumni responded towards the Interpersonal and intra-personal skills development in their ward during the course.
- 54% of the alumni parents responded towards the Behavioral skills development in their ward during the course.

- 90% of the alumni parents responded towards the Level of confidence development in their ward during the course.

Interpretation:

From the above analysis it can be inferred that most of the Alumni agreed that all the skills developed during the two years course time.
