Time: 11.30 am to 1.30 pm	Resource Person: Mr. Anil Rao, Chief Information Officer, Sun Pharma
No. of Participants: 100	Event Coordinators: Dr. Rashmi Shetty
Introduction An insightful and highly engaging session on <i>Industry's Expectations of a B-School Graduate in the AI Era</i> was conducted for the MBA students of RV Institute of Management. The session highlighted the rapid transformation of the business environment due to artificial intelligence and digital disruption, and emphasized the need for future-ready competencies among management graduates.	
Objectives of the Session The session aimed to help students understand emerging skill requirements for future careers, highlight the importance of data literacy, emotional intelligence, and creativity, encourage continuous learning and multidimensional thinking, and prepare students to navigate an information-intensive and fast-changing business world.	
Key Skills Discussed Data Literacy: The importance of data interpretation, business analytics, and evidence-based decision-making was emphasized. Emotional Intelligence (EQ): EQ was highlighted as a critical leadership skill supporting teamwork, conflict resolution, and workplace effectiveness. Creative and Design Thinking: The session stressed innovation through creativity and human-centered problem-solving approaches. Multi-Dimensional Understanding of Business: Students were encouraged to develop integrated perspectives across finance, marketing, technology, and social dimensions. Time Management in the Age of Information Overload: Strategies for prioritization, focus, and digital discipline were discussed. Continuous Learning: The importance of lifelong learning to remain adaptable and competitive was strongly emphasized.	
Interaction and Engagement	

The session witnessed enthusiastic participation from students. Their thoughtful questions reflected a deep interest in aligning personal skill development with industry expectations.

Conclusion

The session provided clarity on the evolving skill landscape in the AI era and motivated students to invest in holistic self-development. The blend of analytical, emotional, creative, and strategic capabilities discussed will equip students to succeed in dynamic and technology-driven business environments.
