Respected Sir,

Sub: Proposal for taking Capitaline database for our Institution

With respect to the above subject, I wish bring your notice that, presently we have Center for Monitoring Indian Economy (CMIE) database, wish to change to Capitaline database. Since there are many problems with CMIE database provider such as;

- The CMIE database is not user friendly
- The usage report of the CMIE is very poor and after sales service is from them is very poor. Since the coordinators are not available in Bangalore.
- For the last one year twice they visited to the institution in-spite our request for many times
- The cost point of view it is almost ~~three~~ ^{two} times compare to the Capitaline database
- The Capitaline services we have experienced previously and found to be very good and very supportive for the students
- The Capitaline database usage is more user friendly and updated themselves with AWS which help the students to use advance query model through that nearly 25 years data can be retrieved and also cost point of view it is less.
- The Capitaline database also provides service within the IP access and remote access through college domain and is for unlimited users.

In this regard I request you to consider this proposal for changing CMIE database with Capitaline database. Please do consider this request for students benefit point of view.

Thank You
