##### 5. **STREET CLEANING, DRAIN CLEANING AND CLEANING OF BLACK ALLEYS:**

Spent two days for cleaning the drain and surrounding of the government school in Hullahalli village. Around 10 members have participated in cleaning the surroundings. First we started out cleaning the front yard of Anganwadi A, the front yard was covered with many grass and other plastic materials. We did the cleaning with the help of tools and safety measures like hand gloves were also taken care of. Cleaning Anganwadi B was a different tale altogether. The front yard of

Anganwadi B was covered with large grass and there was no specific path for people to go from the road to the place. So we removed the grass and cut down unwanted plants and made a path for little kids and grownups that drop off their kids to walk hassle free. We also cut down waste full grown plants that had grown inside the Anganwadi premises which were disturbing the daily activities of the people there.

We also created a semi drainage system for the easy flow of waste water.

Safety measures like hand gloves and masks were used by all the participants.

Many student volunteers also gave their hand to clean the place.

Here is the video of the same.
