Guest Lecture on Human Anatomy (As part of Health and Wellness Subject)

Date: April 18th, 2024

Venue: RVIM Seminar Hall

Time: 7:30 a.m. to 10:30 a.m.

Semester & Section/: I semester (All Sections)

No. of Participant: 180

Event Coordinator: Prof. Ramya S

Objectives

- To provide knowledge about the structure and organs of the human body.
- To understand the importance and functioning of each organ.

About the event:

The event was a guest lecture on the topic Human Anatomy. The purpose of the lecture was to make students be aware of the different organs of the body and their functions. This helps them in taking proper care of the body by understanding the do's and don'ts. The list of topics covered in the lecture are as follows:

- Skeletal—The bones, cartilage, and joints.
- Muscular—The muscles, which helps the body move and breathe.
- Nervous—The brain, spinal cord, and cells called nerves that relay electrical impulses between the brain/spinal cord and the rest of the body.
- Respiratory—The lungs, nose, trachea, and other cells and tubes related to breathing.
- Cardiovascular—The heart, blood vessels, and blood, which provide oxygen and nutrients to the body and remove waste products.
- Lymphatic—Tubes called lymph vessels and several organs and cell types that drain away fluids and protect the body.
- Endocrine—Organs, such as the pancreas, liver, testes, and ovaries, and glands that produce/regulate hormones and other chemical signals.
- Male and Female Reproductive Systems—Organs involved in reproduction, including the uterus, clitoris, and penis.
- Urinary—The kidneys and bladder, which filter the blood, remove waste products, and produce and excrete urine.
- Digestive—Organs, such as the mouth, stomach, intestines, and anus, which digest and absorb food and dispose of waste products.

Resource person for the lecture:

Dr. Jahan zeb

- Has completed his UG and PG from Moulana Azad Medical College, Delhi
- Has completed his PhD in Medical Anatomy from Moulana Azad Medical College, Delhi

- Currently working as a Professor and Head of the Department in Department of Human Anatomy on KLE Institute of Medical Sciences Bangalore since 2008.
- Also works as a Visiting Post Mortem Surgeon in RV College and Sanjay Gandhi Institute of Trauma and Orthopedics.
- He has received a Best Anatomist Award- 2018-19 From Ravi Patil Institute of Trauma, Belgaum
- He has also received an Avid Demonstration award in the year 2017- Second place

RVIM MBA 2023-25

Anitha Mam, Ankita Finance Departme...

Tue, 16 Apr

Dear students,
This is to inform you all that, as part of Health and Wellness subject a session on "Human Anatomy" has been organised on Thursday, April 18th at 7:30 a.m. in the seminar hall. Resource person for the session is Dr. Jahan Zeb, Anatomy and Physiology, General Physician.
Please note, it's a combined session for all sections of 1st semester. Attendance is mandatory and journal writing is based on the session inputs.
Thank you
Ramya S, Coordinator, Health and Wellness

2:29 PM ✓✓

Outcome Achieved/ Attained:

Students enjoyed the session and learnt about human anatomy in detail. They appreciated the fact that being management students, they weren't aware about the different functionalities and importance of the various organs of the body. The resource person also highlighted on the value of life and the importance of good deed. Overall, the session was enriching on the emotional and intellectual elements of the concept "Human Anatomy".
