Feedback/ Coordinators Comment:

The Quantitative Aptitude section is interesting and is one of the toughest sections. The students were informed about the practice that is required and how to enhance mathematical skills. They were also informed that it is scoring paper; one has to learn formulas and use short cut method. General information of IBPS quantitative Aptitude to all the short cut methods was shown to the students.

It was also told that Quantitative Aptitude section has acquired even more important position as it is included both in PRE and MAINS examination under the process of IBPS Recruitment.

IBPS PO Preliminary Exam

Total Questions – 35

Maximum Marks – 35

IBPS PO Mains Exam:

Total Questions – 50

Maximum Marks – 50

Prelims Cutoff 2018:

SC/ST/OBC - 4.75

General – 7.75

Outcome achieved/ attained:

Through this guest lecture we were able to analyses the following

1. Students showing interest towards quantitative aptitude. Inculcating skills in solving mathematical problems.
2. Students showing interest in writing Competitive exams
3. Regular Practice quantitative aptitude questions and remembering of short cut methods. Current events to be updated on a regular basis. This will benefit the candidate and may able to pass the written examination.
4. 15 students showed interest to take up IBPs training. Once they completed the 1st semester University exams, IBPS classes will be floated to the students.
