

5 Day FDP on Application of Analytics in the areas of Management	
Date: 22 nd to 26 th June 2020	Venue: Zoom webinar
Time: 11 am to 1 pm	Event : Webinar
No. of Participant: 105	Event Coordinator: Dr. Santhosh M Prof. Reddy Prof Dileep Prof. Priya Jain
Objectives <ul style="list-style-type: none">- To gain deeper understanding of the world of Business Intelligence- To understand the concept of marketing analytics and apply the related to tools to solve marketing related problems.- To understand the concept of HR Analytics and apply some tools to demonstrate how analytics helps to solved HR related problems- To understand the concept of Operations analytics and applying some analytical tools to demonstrate how analytics helps in solving operations and supply chain related issues.- To understand the concept of finance analytics and how financial analytics helps to solve various financial issues.	
Agenda/Flow of the Event <ul style="list-style-type: none">• 22nd June- Introduction to the World of Business Intelligence• 23rd June- Marketing Analytics• 24th June- HR Analytics• 25th June- Operations Analytics• 26th June- Finance Analytics	
Outcome Achieved/ Attained: <ul style="list-style-type: none">- Dr Bung started the FDP on 22nd June with the introduction and importance of Business intelligence. He explained the difference between OLAP and OLTP. He briefly explained the architecture of business intelligence and how it works in real world scenario. He has also given	

overview of the concept of data mining.

- On the second day the resource person was Dr. Devesh Bathla and he introduced all to the concept of marketing analytics. He highlighted some examples of big data like genetics data, physics experiments and passively gathered data. He demonstrated what all things data can do in sports. He also took a data set of supermarket and explained how analytics can be applied there and can help to solve various complex problems.
- Third day the session was taken over by Mr. Prashant Ahuja. Initially he explained how human resource functions in an organization. He then focused on why HR/ people/ work force/ talent analytics is required. He explained that with the advancement of technology the old operational HR has been shifted to strategic and data driven HR. He also discussed the concept of Attrition analysis/ Churn Analytics.
- Fourth Day the session was held by Mr. Swapnil Soni. Mr Swapnil introduced to the concept of operations analytics and its challenges across industries. He discussed wonderful case study **Dynamic Decision Model For Cyclical Employee Scheduling**. Using the case study he explained how analytics can be used in solving the problem of making work roaster for employees working in different shifts.
- Last day of the program was taken over by Mr. Jishnu Mukherjee on the topic Finance Analytics. He explained the concept of credit risk analysis and explains the profit and loss of banks and credit card customer behavior. He also explained predictive modeling lifecycle. He used R tool and demonstrate how analytics helps in taking financial decisions.

Feedback & Coordinator Comment:

The entire program was very well received by all the participants. Everyone appreciated the efforts of all the resource persons and shown their interest to attend many more such sessions. Linking analytics with various management aspects and demonstrating the use of analytics to solve various management issued was the major take away for all the participants.

Annexure 3

Brief profile of the speaker

Brief Profile of the Resources Persons

1. Dr Purushottam Bung, Professor and Director at RV Institute of Management

Dr. Purushottam Bung is an engineer with a rich experience of around 26 plus years in Academia and industry (domestic and international). He completed PGDM from Melbourne Business School, Australia, one of the top 10 B-schools in the world and MBA from Monash University, one of the top universities in the world. He has a rich entrepreneurial experience of around 10 plus years in the food processing industry. He is on the expert/advisory/editorial panel of many Institutions, Universities, NGOs and journals. Dr. Bung has presented and published 22 research articles in national and international refereed journals and undertaken several consultancy assignments. Dr. Bung was conferred with “Enterprising Academic Leader of the year (South India)” as part of National Education Excellence Awards in 2018. He was conferred with “Distinguished Educator” award in 2013. In 2015 he was awarded as ‘Best Director of a B-school in Karnataka’ as part of education excellence awards – 2015. He is member of many Associations and Institutional bodies. He is elected as FELLOW of World Academy of Productivity Sciences at Beijing, China recently. He is also a research fellow of Institute of Productivity, UK. Dr. Bung is offering management consultancy services to local Businesses, Institutions and entrepreneurs as well. Very recently he has completed a HarvardX course in collaboration with Pearson Global and Ureka Education group, UK on ‘Future of Learning’ anchored by Prof. Richard Elmore, Professor and authority in Education and Learning from Harvard.

**2. Dr. Devesh Bathla, Industry Practitioner & Professor of Analytics, Chitkara Business School
Chitkara University, Punjab**

- Dr. Devesh Bathla is a committed, knowledgeable and capable industry practitioner with 10+ years of experience in field of Business Analytics and passionate for corporate training and academia. He has over 10 years of experience providing analytical solutions to global clients from diverse domains of IT, BFSI, Health Care, Ed-Tech and more.
- A confident presenter and teacher, able to impart complex information to audiences of all levels. Worked with BCG, SAS, IBM on CLM projects.
- Dr. Devesh has designed and delivered curriculum on “Data Science Essentials” for UG/PG programs at Universities. Published two books with an international publishing house at Germany
- Dr. Devesh is Expert in Customer lifecycle management, Product management and Channel Sales.
- He is a proud recipient of TTSL Monthly Star Award , Spotlight Award, Young Star Award and Chairman Award

3. Mr Prashant Ahuja, Senior Analyst, Global Leadership Hiring, UK & India

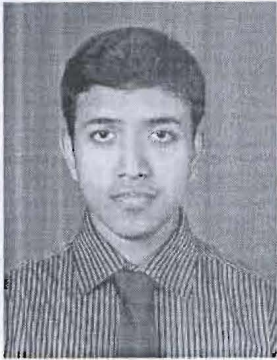

- Prashant is a mid-career research and analytics service professional with >5 years of quasi-

consulting work experience.

- He has well-rounded professional experience spanning research engagements, management consulting, Human Resource consulting, big data analysis, leadership advisory and executive search.
- He enjoys working in multi-cultural environment and setting a new challenge every day. His four pillars for growth are learning, hard work, enthusiasm, and ownership

4. Mr. Jishnu M, Senior analyst, Data science, Infosys

Jishnu has been associated with Data & Analytics industry for the past 6 years and currently works at Infosys Ltd as Senior Analyst. His work involves validation of credit risk and Fraud detection models for US retailers and financial institutions. He also has experience in delivering to several Fortune 500 companies on the problems around retail operations decision making, store operations optimization. Jishnu has teaching experience with different institutes and in online platforms and have delivered over 1000+ hours of training. He holds a PGDDS from IIIT-B and is well versed with using advanced coding practices and visualization tools and structures. He uses both R and Python for teaching data science. Jishnu's expertise is in time series modeling and is also experienced highly in using various supervised and unsupervised machine learning algorithms to solve real world complex business problems. His experience and ability to teach concepts for both the students at graduate level and working professionals effectively helps the audience to grasp and apply at their level.

5. Mr Swapnil, Lead Business Analyst, Infosys Ltd.

Swapnil Soni has been associated with Data & Analytics industry for the past 8 years and currently works at Infosys Ltd as Lead Analyst. His work involves validation of credit risk models for US banks, serving the purpose of bank's portfolio planning and regulatory compliance (CECL, CCAR and DFAST). He has delivered qualitative and quantitative assessment of econometric models, optimisation models along with proposals of challenger models for the performance improvement in retail operations just to name the highlights. His profile evinces diverse experience of teaching and project management. Swapnil started his career as a lecturer and session in-charge in an engineering institution and facilitated thermal and design subjects of mechanical engineering for a year. His contribution at TATA projects in waste reduction and process automation fetched him recognition from Tata Projects as well as Quality Circle Forum of India. Swapnil has earned Masters of Management in Business Analytics from Indian Institute of Science (IISc), Bangalore along with specialized courses from IIM-B and NIAS. He is currently pursuing PhD at IISc. He is highly experience in teaching complex concepts using simple methods.

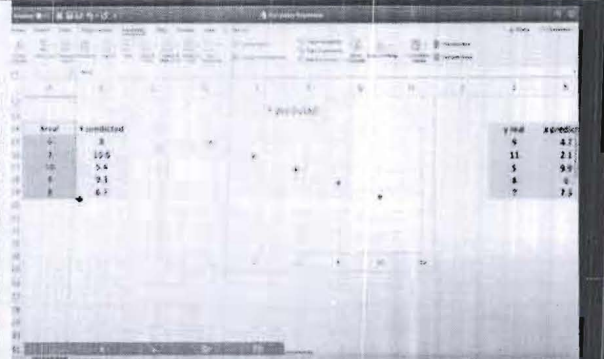

Annexure 5 Photo Gallery

Human Resources Function in any Organization

Key HR Responsibilities:

- Strategic Workforce Planning
- Recruitment Planning
- Talent Development
- Payroll and Compensation
- Performance Management
- Employee Engagement
- HRIS
- Health & Safety
- Diversity
- Communication Strategy
- Organizational Design
- Employee Well-being
- Regulatory Compliance
- Rewards and Recognition
- Employee Discretion and Organization

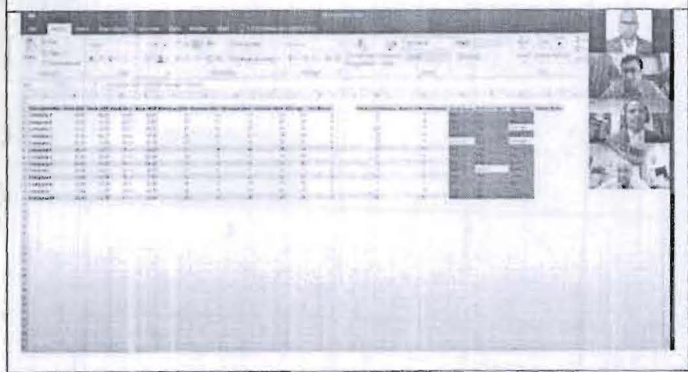

Boosting Employees Safety and Wellbeing

Problem: Design a employee safety solution for people working in the factories to reduce accidents.

Technology Leveraged: IBM Watson's cognitive computing power and sensors in smart helmets and belts.

Data Analyzed: Worker Movement, Heart Rate, Temperature.

Solution: IBM Employee Wellness and Safety Solution, delivers safety alerts in **real time** to workers and supervisors. For example, if the technology detects a worker is **not moving** and they have an **increased heart rate and high temperature**, it could mean they're suffering from exertion or even extreme heat stress. In which case, a supervisor could be alerted, or the employee advised to take a break.

Agenda/Flow of the Event

Date Day	Session I Expert Talk		Session II Practice session Experts: Dr. Purushottam Bung Dr. Padmalini Singh
Time →	09:00 am -10:30 am (Morning) FOLLOWED BY 20-25 MINUTES Q&A		11:30 am-01:30 pm (Afternoon)
19 th July Sunday	Dr. Sourav Borah Assistant Professor, Marketing IIM-Ahmadabad	Framing the Manuscript	Problem Identification
20 th July Monday	Dr. Souvik Dutta Assistant Professor at IIT, Delhi	Problem Statement Review of literature Identifying research gaps	Introduction Hooking strategy
Time →	02:00 pm -03:30 pm (Afternoon) FOLLOWED BY 20-25 MINUTES Q&A		11:30 am-01:30 pm (Afternoon)
21 st July Tuesday	Dr. Charan Singh, Chief Executive EGROW Foundation	Research questions Framing objectives Framing Hypothesis	Review of literature Identifying research gaps
Time →	09:00 am -10:30 am (Morning) FOLLOWED BY 20-25 MINUTES Q&A		11:30 am-01:30 pm (Afternoon)
22 nd July Wednesday	Dr. M.H.Bala Subrahmanya Professor,	Research Process and Research Design	Research questions

LUNCH

	Management Studies, IISc, Bangalore		
23 rd July Thursday	Dr. Pawan Kumar Singh Director, MDI Gurgaon	Interpreting findings and writing insightful conclusion	Framing Objectives Framing Hypothesis
Time →	09:00 am -10:00 am (Morning) INCLUDING 20-25 MINUTES Q&A		11:30 am-01:30 pm (Afternoon)
24 th July Friday	Dr. Pranav Garg Assistant Professor, Stevens Institute of Technology, Hoboken, New Jersey	Formulating a publication strategy	Research Design
Time →	11:30 am -12:30 pm (Morning) FOLLOWED BY 20-25 MINUTES Q&A		01:00 pm-02:30 pm (Afternoon)
25 th July Saturday	Dr. Azhar Kazmi Professor, King Fahd University of Petroleum & Minerals, Saudi Arabia	Publication Ethics	Entire research plan & way forward & Feedback

Outcome Achieved/ Attained:

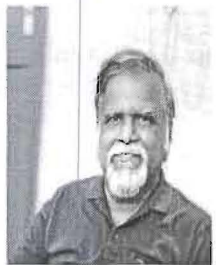

One week FDP was completely appreciated by the participants. The expert's talk followed with the workshop was very helpful in practicing the concepts learnt by the participants.

Few testimonials of the participants:

Prof. Javed Shaikh,
Academic Associate,
IIM-Ahmadabad

"Hands on exercises which forced me to apply my understanding in practical manner".

Mr. Mohanadoss Balaguru
Principal Consultant
HR Net Consultants Private Ltd

"Academic Excellence combined with Practical Experience of the Speakers coupled with support from Dr. Purushottam Burg, Dr. Padmalini Singh and Dr. Priya Singh, 'Walked The Talk' from Introduction to Publication made participants understand the entire Chain of Research / Thesis / Proposal and Paper."

Mr. I. IMTIAZ BAIG
Talent Manager
Baig & Associates

"The structure and design, Choice of Resource persons/ speakers from all over. Blend of both knowledge and skills, Skills through Practice Sessions. Magnanimity of the Institute to support and share resources."

Dr. MEERA B
HOD Department of Business Administration
SJR college

"Well organized and commendable leader and excellent speakers"

Dr. BASAVARAJU P S
Assistant Professor,
GMIT, Davangere

"Wonderful programme with time management, coordination communication"

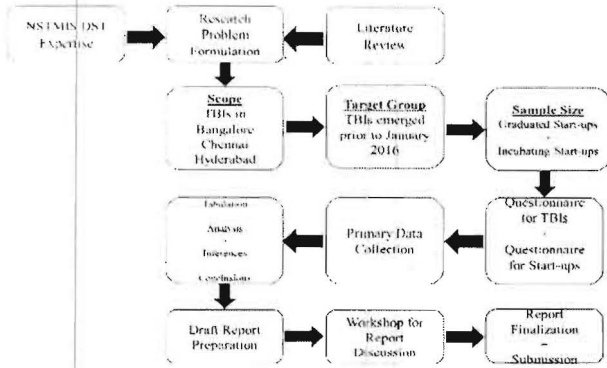

Academic Papers: Crafting A Manuscript

- Six Major Components
- Introduction and Motivation
 - The problem should have broad practical and academic relevance.
 - Should be generalizable.
- Literature Review
 - It is not copy paste job.
 - Relevant vs. Irrelevant literature.
- Hypothesis Development
 - Intuitive vs. Non-intuitive hypothesis
 - Literature is not hypothesis.
- Methodology

WHERE DOES A PROBLEM STATEMENT ORIGINATE FROM?

- A good problem originates from a research question formulated out of observation of the reality.
- A literature review and a study of previous experiments, and research, are good sources of research questions that are converted to statements of problem.
- Many scientific researchers look at an area where a previous researcher generated some interesting results, but never followed up. It could be an interesting area of research, which nobody else has fully explored.

RESEARCH PROCESS

Snapshot of few days

Anchor on theory or phenomenon?

- Most scholars develop identity along one axis
 - Rows are theoretical perspectives
 - Columns are phenomena
- Typically, management papers are at the interface
 - A theoretical perspective and a phenomenon

	M&A	Alliances	Business groups
Resource Based View			
Transaction cost economics			
Agency theory			

Feedback & Coordinator Comment:

The FDP program was received much appreciation by all the participants. The participants also valued and enjoyed the interaction with the experts as well as during the workshop. The participants have requested to organize FDPs and workshop on research in future too.

Event Convener: Dr. Padmalini Singh

Director

Event Coordinator: Prof. Priya Jain

FDP on EMERGING TECHNOLOGIES- WAY FORWARD (In association with RV SKILLS)	
Date: 3 rd Aug to 8 th Aug 2020	Venue: Zoom webinar
Time: 11 am to 1 pm	Event : Webinar
No. of Participant: 171	Event Coordinator: Dr. Santhosh M Prof. Reddy Prof Dileep Prof. Priya Jain Ms. Vidya (RV SKILSS)
Objectives <ul style="list-style-type: none">- To gain deeper understanding of the concept of Artificial Intelligence- To identify the future of block chain in India and world.- To understand the concept of IOT and its opportunities and challenges and solutions.- To analyze the importance of Robotics Process Automation in today's world- To examine the future of Cryptocurrency.- To have knowledge about the cloud computing	
Agenda/Flow of the Event <ul style="list-style-type: none">• 3rd Aug- Artificial intelligence by Mr. Chinmaya Mishra, Lead Data Scientist, Microsoft• 4th Aug- Future of Block Chain by Mr. Stanly Johnson, Block Chain developer and researcher• 5th Aug- IOT- opportunities, challenges and solutions by Mr Raghu Venkataramana, Director- Qantom Software Pvt. Ltd.• 6th Aug- Cryptocurrency by Mr. Stanly Johnson, Block Chain developer and researcher• 7th Aug- Robotic Process Automation by Mr. Gulshan kumar, programmer Analyst, Inventys Technology pvt. Ltd.• 8th Aug- Travel in the cloud by Mr. Mahesh P, Infrastructure Engineer Architect, Data management startup.	
Outcome Achieved/ Attained: <ul style="list-style-type: none">- Mr. Chinmaya Mishra started the program on the first day and explained a clear distinction	

between Artificial intelligence, machine Learning and Deep learning. He used CRISP Data Mining Model to solve business problems. He described the use of analytics for recommendations.

- On the second day Mr. Stanly Johnson started the session with the article on Bitcoin: A Peer to Peer Cash System. He explained in detail how block chain functions and what will be the future of block chain.
- Third day session was taken by Mr. Raghu on the topic IOT. He briefly explained what is IOT, its history, opportunities, challenges and solutions. He also told about various application domains of IOT. He showed some videos on the application of IOT for better understanding of participants.
- Fourth day session was taken over by Mr Stanly again on the topic Cryptocurrency. He explained briefly how cryptocurrency works and what is the future of it. He also explained various types of cryptocurrency and motivated audience to invest in same. What are the security points during investment were also very clearly explained by him.
- Fifth day the session was taken over by Mr. Gulshan Kumar on Robotics Process Automation. He explained what is RPA, how it works and various tools of RPA like Blue Prism, Automation Anywhere, UiPath etc. he also explained what should be the selection criterion for the tool.
- Last day session was taken by Mr. Mahesh on Cloud computing. He started the session with quote Travel in the cloud like you travel on the road; travel in the cloud is not just reaching the target but is an experience that you would be excited. He explained about storage of data on the cloud, how it works and various myths associated with it

Feedback & Coordinator Comment:

The entire program was very well received by all the participants. All the participants appreciated the program and were happy to have deeper knowledge on emerging trends. During the sessions participants had a chance to know how various new technologies works and how they can be used in our daily life to solve various problems.

 **RV Institute of Management**
Approved by Bangalore Central University
Approved by AICTE, New Delhi. Accredited by NAAC with 'A+' grade

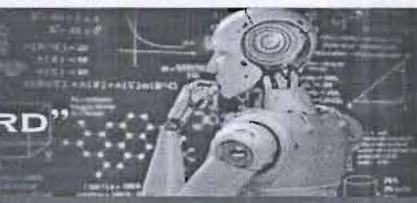

Go, change the world

RV Institute of Management
In association with
RV-SKILLS
CENTRE FOR KNOWLEDGE TECHNOLOGY
Is Organizing an FDP On

“Emerging Technologies- A WAY FORWARD”
From 3rd August to 8th August, 2020
11.00 am to 1.00 pm

SPEAKERS

Chinmaya Mishra
Lead Data Scientist Microsoft
(Topic- Artificial Intelligence)

Gulshan Kumar
Programmer Analyst
Inventys Technology Pvt. Ltd
(Topic - Robotic Process Automation)

Stanly Johnson
Block Chain Developer and Researcher
(Topic-Future of Block Chain and Crypto Currency)

Raghu Venkataramana
Director, Qantom Software Pvt. Ltd.
(Topic-IOT- Opportunities, Challenges and Solutions)

Mr. Mahesh P
Infrastructure Engineer Architect
A Data Management Startup
(Topic- Travel in the Cloud)

Moderator

Mr. Venkatesh Prasad
Professor and Director,
RV SKILLS, Bangalore

Dr. Purushottam Bung
Professor and Director
RV Institute of Management, Bangalore

Participation Fee: Rs. 500/- Faculty / Scholars Rs. 200/- Students

Once you make the payment please register through the google form link
<https://forms.gle/E78e5Bh45vqfMriv9>

E-certificates will be provided to all the registered participants

Payment Details:

Name: Director RV Institute of Management
Bank Name: ICICI Bank, 9th Block Branch,
A/C No.: 029901002291
IFSC Code: ICIC0000299
MICR Code: 560229022
UPI ID : directorrvim@icici

For further clarification please contact:

Dr. Santhosh @ 9739945333
Prof. Reddy @ 9845492336
Prof. Dileep @ 8553276869
Prof. Priya @ 9108300728
Ms. Vidya @ 7349389666

✉ businessanalyst.fdp2020@gmail.com

Annexure 3
Brief profile of the speaker

Brief Profile of the Resources Persons

1. Mr Raghu Venkataramana, Director- Qantom Software Pvt. Ltd.

- Mr. Raghu is the founder and CEO of Qantom Software Private Limited.
- He has done is post graduate in IOT from Birla Institute of Technology and Science, Pilani.
- After working on various technologies like VOIP, Networking, IP Phone etc now he is completely focused on building products and frameworks for IOT Experience.
- Till now he has created many IOT products like prototype of an IOT framework which allows for easy discovery and configuration of IOT end points; a framework to manage unit and automated tests directly from spreadsheets; created a utility which helped Quick test users to manage the descriptive repositories and many more.
- Mr. Raghu is very strong in core java and object oriented development. He is expert in SQA and test automation.
- In his initial years of professional career he has worked in the fields of graphic design and turnkey printing and has build his entrepreneurial skills.

2. Mr. Chinmaya Mishra, Lead Data Scientist, Microsoft

- Mr. Chinmaya is the enthusiastic learner in Artificial Intelligence field with Machine Learning and

Deep learning skills.

- Currently he is leading data science team consists of threat intelligence, hunting, Insider risk and compliance.
- He is a sensible team leader with leading midsize teams and have good record of working closely with cross functional teams across security, operations, marketing and supply chain.
- His passion is mentoring various data science aspirants.
- He loves to explore more in cyber security and Engineering analytics which brought him to work for Fortune 500 companies like Honeywell, Rockwell Collins, Collins Aerospace and Microsoft.
- He has worked on many critical projects like connected ecosystem, cyber security and many more.
- He got an exposure of business aspects of Artificial Intelligence while doing analytics in Retail Finance at Bajaj Auto Finance.
- He is also specialized in Big data technology like Hadoop, R, Python, PYSpark SAS and SPSS

3. Mr. Stanly Johnson, Block Chain developer and researcher

- Mr. Stanly Johnson is a software engineer passionate about developing solutions that make a dent in the universe.
- He has worked on medical block chain platforms; IOT based supply chain solutions, cry exchanges and is an early contributor to the Corda Enterprise block chain platform.
- He is a certified block chain architect and was one of the first employees of Serventire Global. India's first block chain acquisition.
- He currently works as a block chain developer for a leading crypto currency exchange in South korea

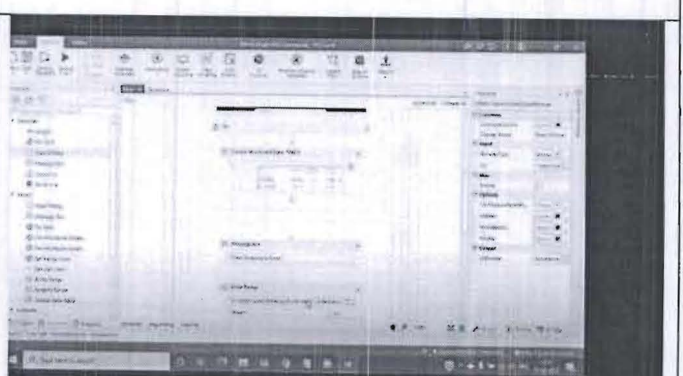

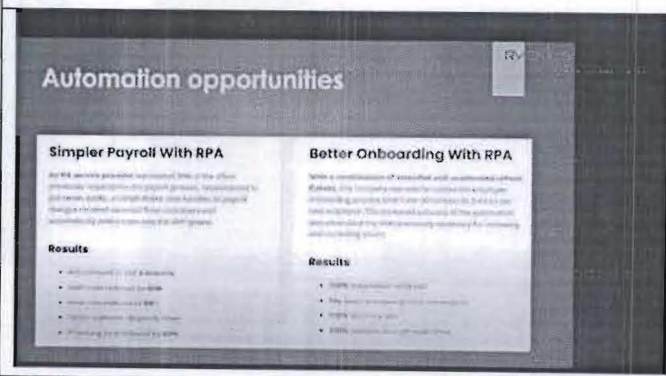

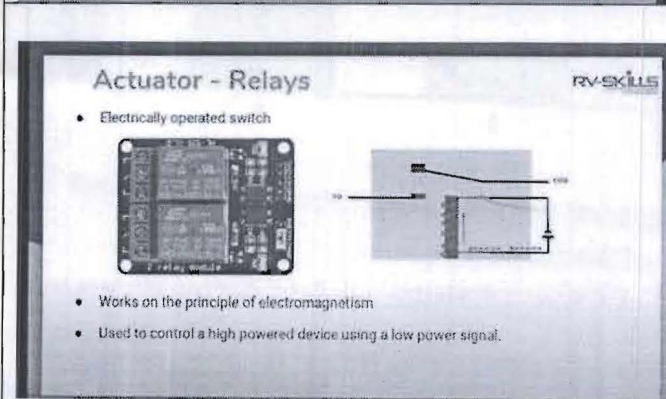

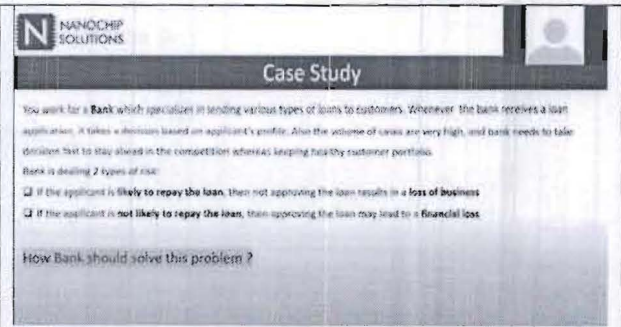

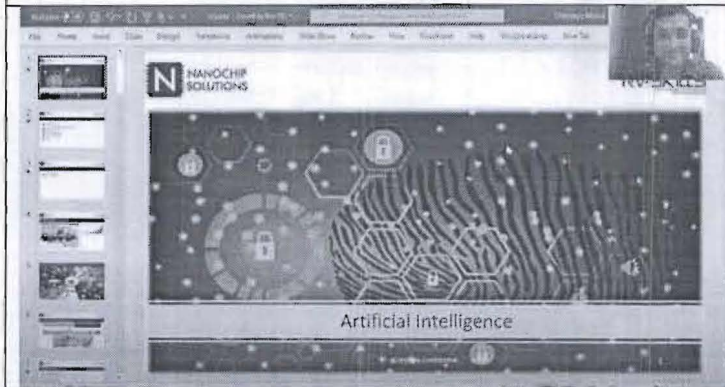

4. Mr. Gulshan kumar, programmer Analyst, Inventys Technology pvt. Ltd.

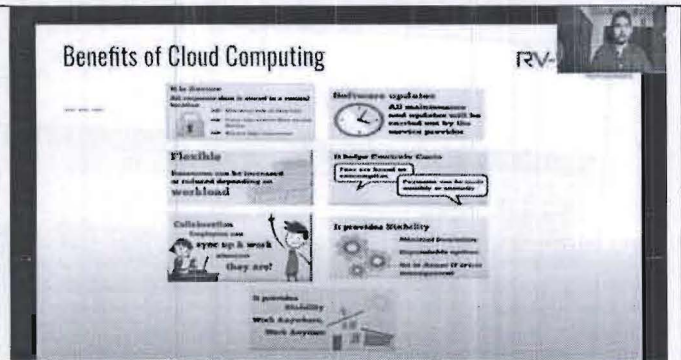

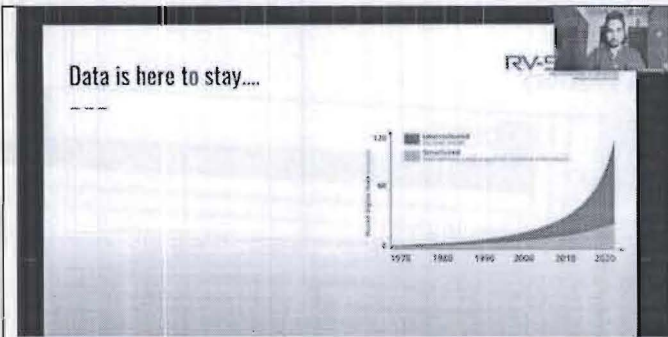

(Full CV attached)

5. Mr. Mahesh P, Infrastructure Engineer Architect, Data management startup.

(Full CV attached)

Gulshan Kumar

7th Cross,16th main, BTM,2nd Stage, Bengaluru, KA 560076 | 888 048 2405 | er.gulshankumar2014@gmail.com

Professional Summary

Results-oriented RPA developer having 4.8 years' experience in Automation with the web and window-based Applications. Created RPA structure and team along with production support, designed and developed RPA solutions to accelerate Business processes. Flexible and resourceful professional with deep understanding of acceptance criteria.

Skills

- Working Experience with RPA development with UiPath, Blue Prism, Fusion.
- Well acquainted with RPA life cycle, PDD, TDD and OMD
- Experience in creating automation from scratch using UiPath
- Well versed in PDF and Excel automation with UiPath
- Experience with Selectors and Exception handling
- Experience in Email automation with POP, IMAP and Exchange mail services
- Exposure with .net functions for basic UiPath usage
- Exposure to UiPath orchestrator with queues, scheduler and Assets
- Exposure to Blue Prism studio and control room
- Exposure to VBOs and Exception handling in Blue prism
- Experience in Manual and automation testing using selenium web driver
- Experience in Bug life cycle, SDLC and STLC
- Exposure with java and SQL
- Experience with project management tool like JIRA, Bugzilla
- Experience in JMeter and Blaze-meter
- Exposure to GIT, Maven, SVN
- Having strong problem solving and effective communication skills

Work History

RPA Developer

Inventys technology Pvt. Ltd.

Feb 2018 - Current
Bengaluru, KA

Project 1: - Retail Chain Management (Payments):

- **Client** : TGBL
- **Duration** : 10 months
- **Team Size** : 2
- **Technology** : RPA
- **Tools Used** : UiPath, Excel

Description: Main objective of this project was to create documents like Sales order, Delivery challan, and Sales invoices and to manage stock of the company. Source data was being downloaded from a website in the form of excel.

Roles and Responsibilities:

- Adopted Agile methodology for implementation.
- Prepared automation concept and control drawings according to client's specifications.
- Performed needs and gaps analysis procedures and detailed data reviews to optimize implementation.
- Updated and maintained project documentation for detailed recordkeeping.
- Developed technical solutions to resolve a range of problems.
- Discussed requirements and processes with project managers and Client

- Worked with Business Teams to create **PDD (Process Definition Document)** and developed separate **SDD (Solution Design Documents)**
- Created end to end automation with the help of UiPath tool.
- Used Web, PDF, Email, Excel and File automation to develop this process.
- Used UiPath Orchestrator for deployment, monitoring and management of automation.
- Attended daily status call with client, shared status report.

Project 2: - Insurance Claim Management:

- **Client** : Michelin
- **Duration** : 8 months
- **Team Size** : 2
- **Technology** : RPA
- **Tools Used** : UiPath, Sql

Description: Main objective of this project was to update all the settled claims to one portal to another portal based on the dates provided. All the unsettled claims need to be process based on the rules provided by client.

Roles and Responsibilities:

- Adopted Agile methodology for implementation.
- Performed needs and gaps analysis procedures and detailed data reviews to optimize implementation.
- Updated and maintained project documentation for detailed recordkeeping.
- Developed technical solutions to resolve a range of problems.
- Discussed requirements and processes with project managers and Clients.
- Created end to end automation with the help of UiPath tool.
- Used Web, Database, Email, Data-table and File automation to develop this process.
- Used UiPath Orchestrator for deployment, monitoring and management of automation.
- Attended daily status call with client, shared status report.

Project 3: - Supply Chain Management:

- **Client** : Amco
- **Duration** : 8 months
- **Team Size** : 3
- **Technology** : RPA
- **Tools Used** : UiPath, CSV

Description: Main objective of this project was to create invoice based on the data provided in a different portal which will be downloaded into .csv format. We need to read the invoice details and upload it to another portal with unique invoice number.

Roles and Responsibilities:

- Adopted Agile methodology for implementation.
- Performed needs and gaps analysis procedures and detailed data reviews to optimize implementation.
- Updated and maintained project documentation for detailed recordkeeping.
- Developed technical solutions to resolve a range of problems.
- Discussed requirements and processes with project managers and Clients.
- Created end to end automation with the help of UiPath tool.
- Used Web, CSV, Email and File automation to develop this process.
- Used UiPath Orchestrator for deployment, monitoring and management of automation.
- Attended daily status call with client, shared status report.

Project 4: - Ewaybill Creation:

- **Client** : Fleet-Guard

- **Duration** : 4 months
- **Team Size** : 3
- **Technology** : RPA
- **Tools Used** : UiPath

Description: Main objective of this project was to create e-way bill based on the data provided in excel and send a email to client with created e-way bill numbers.

Roles and Responsibilities:

- Adopted Agile methodology for implementation.
- Performed needs and gaps analysis procedures and detailed data reviews to optimize implementation.
- Updated and maintained project documentation for detailed recordkeeping.
- Developed technical solutions to resolve a range of problems.
- Discussed requirements and processes with project managers and Clients.
- Created end to end automation with the help of UiPath tool.
- Used Web, Email and File automation to develop this process.
- Attended daily status call with client, shared status report.

Software Engineer
Exilant Technologies

Oct. 2015 – Feb 2018
Bengaluru, KA

Project 1: - Purchase Control:

- **Client** : Singhvi
- **Duration** : 7 months
- **Team Size** : 5
- **Technology** : RPA
- **Tools Used** : Blue prism, PDF

Description: Main objective of this project to check for the purchase order is in budget or not. Based on that we need to send approval or rejection mails. To check we need to follow certain conditions provided by Client.

Roles and Responsibilities:

- Adopted Agile methodology for implementation.
- Performed needs and gaps analysis procedures and detailed data reviews to optimize implementation.
- Updated and maintained project documentation for detailed recordkeeping.
- Discussed requirements and processes with project managers and Clients.
- Created end to end automation with the help of Blue prism tool.
- Used Web, Email and File automation to develop this process.
- Used Web, Email and file automation using Blue Prism
- Attended daily status call with client, shared status report.

Project 2: - Singapore Postal Services:

- **Client** : Singhvi
- **Duration** : 10 months
- **Team Size** : 8
- **Technology** : Selenium
- **Tools Used** : Selenium Web driver, Java

Description: Singapore Post is a web-based application which has been developed to manage mailing and courier services for the customer based in Singapore.

Roles and Responsibilities:

- Prepared and reviewed scenarios, test cases & test data.
- Designing scenario file for each requirement on basis of manual test cases.

- Created automation test scripts in the existing Hybrid framework.
- Completed automation of functional and regression scenarios.

Project 3: - Performance Evaluation (IO Selas Native):

- **Client** : Singhvi
- **Duration** : 3 months
- **Team Size** : 4
- **Technology** : Performance Testing
- **Tools Used** : JMeter , Blazemeter

Description: IO SELAS is project related to Medical representative. It is used to keep track of meetings, appointments, joining of new medical representatives. This is a native application for apple OS.

Roles and Responsibilities:

- Understand the non-functional requirements from business
- Analyzed the critical business scenarios
- Involved in test Execution, Monitoring and preparing reports
- Involved in analyzing the test result and preparing reports

Project 4: Fusion (RPA Tool):

- **Client** : Internal
- **Duration** : 10 months
- **Team Size** : 10
- **Technology** : Manual Testing, Regression testing, Functional Testing
- **Tools Used** : Jira, Excel

Description: Fusion contains multiple components that help to orchestrate the necessary automation on user's desktop. This is a Internal RPA tool.

Roles and Responsibilities:

- Responsible for writing the test cases and execution of test cases.
- Performed Functionality, System testing, Integration Testing, Smoke Testing.
- Tracked the defects and Prepared User Manual.
- Knowledge management and providing KT to new team member

Education

B.E: Electronics & communication Engineering

Gwalior Institute of Technology (RGTU)

Gwalior

Higher Secondary: Science & Math as specialization

CBSE

Patna, BR

Senior Secondary: Advance mathematics as specialization

CBSE

Patna, BR

Professional Enhancement

- Successfully Completed Certification in Blue prism and UiPath
- Provided training for UiPath and Blue prism

Personal Details

Date of Birth: 10th August,1991

Languages Known: English, Hindi

Mahi Trainer

Infrastructure Engineer & Architect

mahi.trainer@gmail.com

Skills

Netapp 7-mode Administration

Netapp C-mode Administration

Netapp C-mode ONTAP 9.0
Performance Troubleshoot

AWS Solutions Architect Associate

I work as an Cloud and Datacenter Architect/Engineer for a large Services firm handling multiple clients in providing Datacenter based Storage/Backup technologies and AWS Cloud solutions. My role includes understanding the client business needs, converting to technical requirements, build a suitable solution, implement and provide L3 troubleshooting.

My expertise on Storage Technologies is majorly Netapp and also EMC to assist with overall issue troubleshooting and provide quick resolution.

Experience

2008 to
present

Cloud and Datacenter Engineer/Architect

Current Company

I've trained and provided teaching assistance to hundreds of working professionals through both Online and Corporate Trainings covering Netapp, EMC and VMware technologies. Due to my thorough experience in Datacenter technologies, also added Cloud technology (AWS) to my based and working on the same since last 18 months. Provided training sessions for AWS Solutions Architect Associate.

- 10 years of experience in NETAPP and EMC storage systems architecture, installation, implementation, integration, security and administration in local & Geo-DR remote environments.
- Lead the project for Engineering the solution of 7-mode to C-mode transition and migrating data that included using 7MTT for NAS Volume migrations and WFA for SAN volume migrations.
- Storage Lead for Data Center moves and consolidations for two locations involving 80TB of Netapp storage.
- Troubleshooting and managing CIFS Shares, NFS exports; Qtree and Quotas management.
- Excellent experience in Engineering and Designing the base architecture and configuration, administrating, maintaining and troubleshooting of Netapp FAS and AFF (7-mode and C-mode), EMC-VMAX, EMC-VNX, VPLEX, Isilon and Clariion systems.
- Deployed and configured multiple instances of Storage tools including OCUM, OPM, WFA, 7MTT for Netapp; SYMCLI, SMI-S and Unisphere for VMAX Arrays.
- Lead Engineer/ Architect from developing requirements for Storage and its connected hardware Monitoring/Reporting Alerting tools to creating Design configuration, implementation, setup and support them for Netapp Command Insight and EMC Vopr SRM.
- Good Knowledge of virtualization (VMWare), Install, maintains, and supports VMware (ESX Servers).
- Troubleshoot and resolve the Storage related issues generated in production, Development and testing environments.
- Responsible for providing Engineering Solutions and handling a large Netapp Storage Environment including all protocols, DR, TIER 3 support.
- Responsible for managing different kinds of AFF 8040 and FAS series 6xxx, 3xxx in SAN/NAS environment. Responsible for production support operations for shared and dedicated clients.
- Provide end to end performance troubleshooting and analysis per hour basis when the application teams enquire about slowness.
- Worked on identifying Storage KPI's (capacity, performance and availability) to monitor/report and alert on – defined a RACI model for the same. Integrated OCUM and OPM to setup SNMP alerting.

- Storage Capacity planning to ensure having sufficient headroom for Organic Growth and planned projects and budgeting capacity and upgrades/New installs for future growth based on historical usage and upcoming projects.
- Deployment, Setup and handling ongoing upgrades for new features/enhancements for Netapp monitoring tools including OCUM and OPM.
- Troubleshooted performance issue on Netapp using sysstat output. Generated perfstat on the filer for troubleshooting the Netapp filer performance issues. Enable the VIF interfaces when they are down. Managing takeover and giveback for Active/Active Configuration.

- Professional with 2 years of experience in AWS design, development and cloud implementation.
- Cognitive about designing, deploying and operating highly available, scalable and fault tolerant systems using Amazon Web Services (AWS).
- Extensively worked using AWS services along with wide and in depth understanding of each one of them.
- Highly skilled in deployment, data security and troubleshooting of the applications using AWSservices.
- Proficient in writing Cloud Formation Templates (CFT) in YAML and JSON format to build the AWSservices with the paradigm of Infrastructure as a Code.
- Experienced with event-driven and scheduled AWS Lambda functions to trigger various AWSresources.
- Experienced with installation of AWS CLI to control various AWS services through SHELL/BASH scripting.
- Experienced in writing complex SQL queries and scheduled tasks using cron jobs.
- Good knowledge in relational and NoSQL databases like MySQL, SQLServer, Oracle, DynamoDB, MongoDB.
- Proficient in AWS services like VPC, EC2, S3, ELB, AutoScalingGroups(ASG), EBS, RDS, IAM, CloudFormation, Route 53, CloudWatch, CloudFront, CloudTrail.
- Used security groups, network ACL's, internet gateways and route tables to ensure a secure zone for organization in AWS public cloud.
- Created and configured elastic load balancers and auto scaling groups to distribute the traffic and to have a cost efficient, fault tolerant and highly available environment.
- Created S3 buckets in the AWS environment to store files, sometimes which are required to serve static content for a web application.
- Possess good knowledge in creating and launching EC2 instances using AMI's of Linux, Ubuntu, RHEL, and Windows and wrote shell scripts to bootstrap instance.
- Used IAM for creating roles, users, groups and also implemented MFA to provide additional security to AWS account and its resources.
- Created EBS volumes for storing application files for use with EC2 instances whenever they are mounted to them.
- Experienced in creating RDS instances to serve data through servers for responding to requests.
- Created snapshots to take backups of the volumes and also images to store launch configurations of the EC2 instances.
- Written Templates for AWS infrastructure as a code using Terraform to build staging and production environments.

**Four Day Continuing Education Programme on Commodity Derivatives
Conducted By
Finance Department**

Date: 1 st to 4 th September 2020	Venue: Webinar
Time: 3.00 pm to 5.00 pm	Event : CEP
No. of Participant: 254	Event Coordinator: Prof. Dileep & prof. Priya Jain

Objectives

- To understand the Indian and Global Commodity Derivatives
- To Analyze Hedging strategies of Futures and options Contracts for Commodities.
- To know Commodity market Operations and clearing & Settlement procedure followed by commodity market.

**Flow of the Event
Session Details**

Session 1	Introduction to derivatives. Types of derivative contracts. Benefits of commodity derivatives markets. History of commodity derivatives markets. Global and Indian market. Major commodities traded. Regulation of commodity markets in India.
Session 2	Risk Management with Commodity Futures. Trading in futures. Margin system. Market participants. Convergence and Basis Risk. Hedging strategies using futures. Spread Trading. Practical aspects of hedging. Pricing of futures contracts.
Session 3	Commodity options. Types of option contracts. Hedging using options. Pricing of option contracts. Option Greeks. Trading strategies using option contracts. Commodity options in Indian market.
Session 4	Commodity market operations. Trading in commodity futures and options. Exchange risk management tools. Clearing, settlement and delivery in commodity markets. Innovative products in commodity markets.

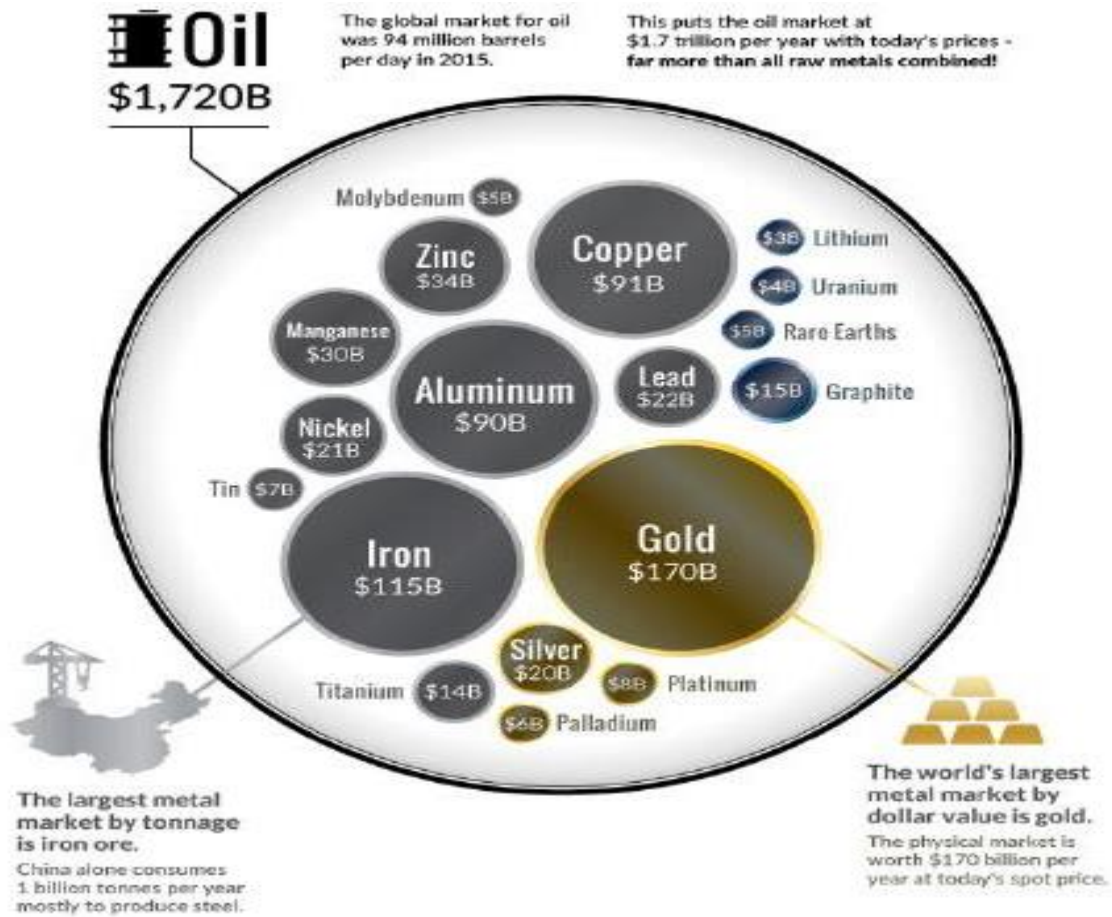

Outcome Achieved/ Attained:

Dr. Ajoy Kumar, the resource person explained with meaning and types of commodities and discussed the following:

The Commodity trading is as old as human history. Starting with the barter system, today it has become the backbone of global economy. The largest traded commodity in the world is crude oil in terms of value

(\$1.7 Trillion). The largest metal traded is gold in terms of value (\$0.17 Trillion) and iron in terms of volume.

Functions of Commodity Derivatives Markets: Price Discovery, Risk Transfer, Market Completion

Types of Commodity Derivatives: Forward Contracts, Futures Contracts, Options Contracts, Swap Contracts.

Global Commodity Market

- Commodity derivatives are the oldest form of derivatives, while financial derivatives emerged much later
- Earliest instances of commodity derivatives were found in rice trading in Japan; tulip bulb trading in Amsterdam etc.
- Dojima Rice Exchange in Osaka, Japan established in 17th century, was the world's first commodity exchange. More structured trading started with establishment of Chicago Board of Trade (CBOT) in 1848.

Global Commodity Market

Table 17: Top 10 exchanges by number of commodity options and futures contracts traded in 2019

	Volume		Notional Value		Open interest	
	2019	YoY change	2019	YoY change	2019	YoY change
Shanghai Futures Exchange	1,411,969,733	20%	13,923,058	17%	5,748,273	37%
Dalian Commodity Exchange	1,355,584,225	38%	9,898,796	30%	9,686,951	113%

Borsa Istanbul	58,571,990	163%	11,751	195%	481,607	76%
Others	52,224,496	33%	706,864	60%	4,311,748	104%
Total	6,826,226,002	15.9%	130,318,041	-6%	71,667,778	15%

Source: WFE's Derivatives Report 2019

After the basics of Commodities the resource person discussed hedging with Futures and Options strategies and discussed the following;

Hedging with Futures Contract

Hedging for a Buyer (Long Hedge)

Case 1: Rising Prices

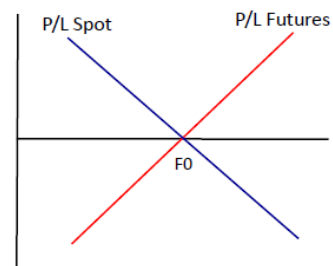

Commodity: Copper

01-09-2020: Buy (Long) October Futures Contracts at Rs.525/kg

30-10-2020: The October Futures and Spot Price are Rs.535/kg

Loss in Spot Market $(525-535) = (10)$

Profit in Futures Market $(535-525) = 10$

Hedging for a Buyer (Long Hedge)

Case 2: Falling Prices

Commodity: Copper

01-09-2020: Buy (Long) October Futures Contracts at Rs.525/kg

30-10-2020: The October Futures and Spot Price are Rs.520/kg

Profit in Spot Market $(525-520) = 5$

Loss in Futures Market $(520-525) = (5)$

Practical Issues

Hedging for a Buyer (Long Hedge)

Commodity: Copper

01-09-2020: Buy (Long) October Futures Contracts at Rs.525/kg

The maturity of the contract is 30-10-2020

Practical Issue 1: The hedger wants to actually buy copper on 10-10-2020

Practical Issue 2: The contract size is 2.5 MT. The hedger wants to buy 3.5 MT

Practical Issue 3: The delivery centre is Thane, but the hedger wants it at Bangalore

Practical Issue 4: The futures are on Grade A Copper Cathodes, but the hedger wants different grade

Practical Issue 1: Date Mismatch

Practical Issue 2: Quantity Mismatch

Practical Issue 3: Location Mismatch

Practical Issue 4: Quality (Asset) Mismatch (Cross Hedging)

Unhedged position is exposed to **Price Risk** and a hedged position is exposed to **Basis Risk**

Option Contracts

A contract between two parties, where the buyer of the option contract gets an option to buy or sell the underlying asset on or before a specified future date at a price agreed upon while entering the contract

Buyer/holder of an Option – **LONG** Position

Seller/writer of an Option – **SHORT** Position

Buyer of option need not necessarily be the buyer of the underlying asset; this depends on the type of the option

Call Option: Option to buy the underlying asset

Put Option: Option to sell the underlying asset

European Style Option: Exercised only on maturity

American Style Option: Exercise anytime till maturity

Options Trading Strategies

Bull Call Spread

Expectation: Bullish

Strategy:

Buy one ITM Call

Sell one OTM Call

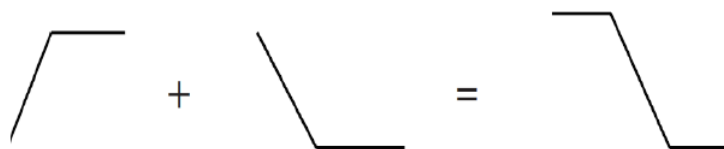

Bear Put Spread

Expectation: Bearish

Strategy:

Buy one ITM Put

Sell one OTM Put

And finally Mr. Shrikant Koundinya discussed about, Trading on Commodity Exchange, Exchange Risk Management Tool, Position limit, Clearing & Settlement and Online MCX Exchange trading.

Trading Platform

- Automated screen-based trading
- National reach
- Trading Session: Agri-Commodities & Others/Daylight saving hours
- Transparent, objective and fair system for automatic order matching
- Identity of the trader undisclosed
- Flexibility for placing orders
- Price Quotation in Rupees
- Square-off facility

**Continuing Education Programme on
Commodity Derivatives**

Organised by: RVIM, Bengaluru
Resource Person: Dr. M Ajoy Kumar
Day 1
01-09-2020

The image shows a presentation slide for a continuing education program. The title is 'Continuing Education Programme on Commodity Derivatives'. It is organized by RVIM, Bengaluru, with Dr. M Ajoy Kumar as the resource person. The program is for Day 1, dated 01-09-2020. The slide features a collage of commodity images at the bottom, including wheat, oil, and metals. To the right of the slide is a video call interface showing four participants in a grid layout.

Commodities

Commodities – Meaning & Types

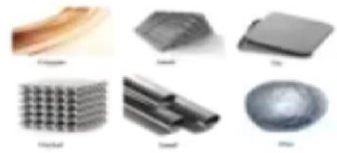

Agricultural Commodities

Precious Metals

Base Metals

Energy Commodities

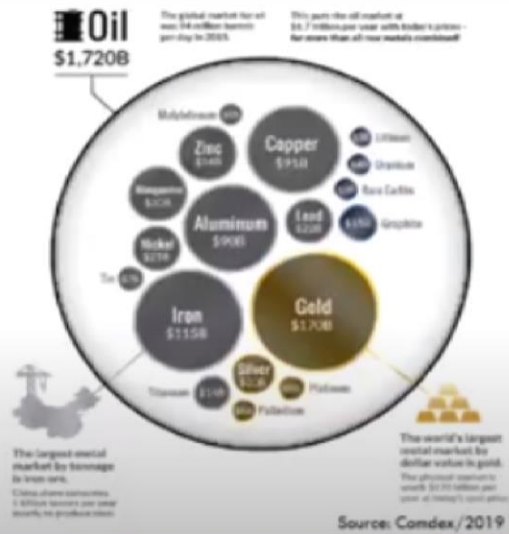

Live Stock

Commodity Trade

- Commodity trading is as old as human history
- Starting with the barter system, today it has become the backbone of global economy
- All manufacturing activities require basic raw materials and energy, which explains the significance of commodities
- The largest traded commodity in the world is crude oil in terms of value (\$1.7 Trillion)
- The largest metal traded is gold in terms of value (\$0.17 Trillion) and iron in terms of volume

Global Commodity Market

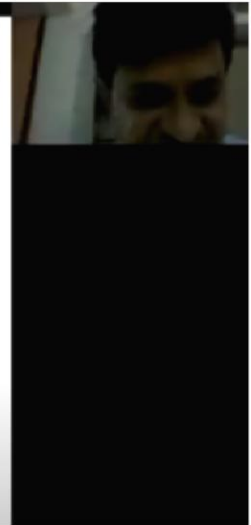

- Commodity derivatives are the oldest form of derivatives, while financial derivatives emerged much later
- Earliest instances of commodity derivatives were found in rice trading in Japan; tulip bulb trading in Amsterdam etc.
- Dojima Rice Exchange in Osaka, Japan established in 17th century, was the world's first commodity exchange. More structured trading started with establishment of Chicago Board of Trade (CBOT) in 1848.

Coverage

- Trading on Commodity Exchange
- Exchange Risk Management tools
- Position limits
- Circuit Filters
- Clearing & Settlement- M2M & Margining
- Delivery

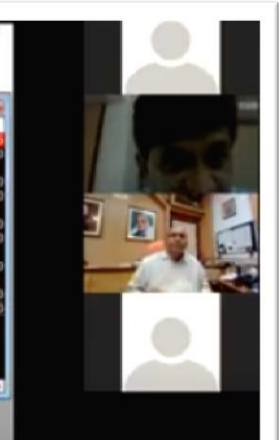

MCX Web Terminal for 11.8.10 (Powered By Thomson Engine)

Annexure 6
Detail Feedback (if required)

Name of the Participant	Your suggestions for improving future Programmes
Dr. S. Durga	Everything is good
Dr. Bhoga Suvarchala Munduru	nice session
Supraja Anupindi	The programme was extremely excellent.
Gururaj Patil	please increase the number of contact hours
Ajithukumar	very good learnings from this event, Thank you RVIM
Usha Sadhani	Please let us know about further session s
Priya Rani Arun Kumar	Amazing program insist for more such webinars on Derivatives
MOHAMMED SOUBAN S	It was indeed and great session thanku
AISHWHRYA R	Overall it is excellent
Dr. Meenakshi Shrirang Wagh	It was a wonderful session explained so lucidly. Please organise many more such programmes and especially on financial derivatives
POOJA M	Thank you for such a wonderful program..
Madhu Bangarimath	Arrange some other programs it will help us to gain knowledge thank you for giving an wonderful opportunity to us.
Meganathan D	Very informative thanks
MUKTI NILAY SHAH	Give us more opportunity in all the upcoming program.
Shubham Chugh	All 4 days were a new information to learn... wanted to be in touch with RVIM for further wonderful and successful sessions. Thanks
Pavithra J	Its is really good and informative!!! Thank you RVIM !!!
Dr. Kiran J. Patel	If possible, extend such type FDP for 1 week with evening time. Thank you.
V.vinodhini	Yes it was a interesting session for 4 days.Expecting more webinars on finance domain.
Dr. Aruna Gudimetla	All 4 days session was informative. Excellent
Rashmi Gowda KM	Very well planned and everthing was taken care off! Looking forward for more such workshops regarding finance (like crypto- currency as we have very limited knowledge of such topics)
SWATI	It was an informative session , I learnt a lot from this sessions. Do keep this sessions further also .
Kumrephi kharei	Overall the programe is excellent ☐ looking forward to join the session again,thank you ☐
KAJAL R TIWARI	bring session on finance topic related to current scenario

Chandrashekhar Ramesh Gajbhiye	Wonderful and fantastic session I learned so many things from the sessions. The way of delivering the speaker was very awesome. I really appreciate it
Pavithra J	Really informative and good !!! Thank you RVIM !!!
Dr. BASAVARAJU P S	We are learning form RVIM to conduct effective and efficient way of running the program. Nothing to suggest. Thank you very much for a wonderful program
Dr. SHALINI R	Very well organized program. Would like to attend many more such programs.
DINESH KUMAR A	no suggestions, keep up the good work team RVIM
Mrs. M. GIRI KUMARI	You organized very well, hope to continue in future
Medapati pavani	No improvements required. The webinar is perfectly awesome
Ramesha	Thanks to RVIM for organize well sessions on 4 days about CEP program and to give the permission to audience to asking question in face to face. Thank you once again
Dr Meena Sharma	So many things were covered in a very short time span. Some more time needed to understand things more clearly.
SIMRAN	It was an amazing knowledge shared by the resource persons & had wonderful experience in this sessions.
Dr. Sarita Agrawal	Everything was very well organized. Keep it up
Dr. Gopika G. G.	Well and sincerely organised one right from prayer song up to National Anthem. Thank you so much for the organisers.
Ranjitha L	No suggestions to improve and it's a great programme thank you RVIM
Aishwarya Deokar	Excellent knowledge provided with examples which eventually has added a lot of value. Keep doing such wonderful programs!!!
Jainabbanu khalifa	Continue taking this types of web. Helping to others for their understanding
Vinutha MT	Informative session
Shubham Chugh	All 4 days were a new information to learn... wanted to be in touch with RVIM for further wonderful and successful sessions. Thanks
Prof Santhosh Rebello	Very good ..new knowledge for.me ..thanks a lot
Smitha G Roopesh	It was completely excellent, so no need to suggest anything.
Rency Joseph	Please provide it to our students

CEP on BIG DATA ANALYTICS	
Date: 5 th October to 10 th October 2020	Venue: Zoom webinar
Time: 11 am to 1 pm	Event : Webinar
No. of Participant: 101	Event Coordinator: Dr. Santhosh M Prof. Reddy Prof Dileep Prof. Priya Jain
Objectives <ul style="list-style-type: none">- To gain deeper understanding of the concept of Big Data Analytics.- To learn how data analysis can be done using Hadoop.- To understand the concept of HDFS, MapReduce, Yarn and Hive.- To analyze the different tools available for data analysis like Python, Git Hub, PySpark, Jupyter etc.- To understand the concept of Image analytics, sentiment analytics and fraud analytics.- To learn how big data analytics takes place in different industries.	
Agenda/Flow of the Event <ul style="list-style-type: none">• 5th October: Introduction to Big Data Analytics• 6th October: Hadoop concepts and Architecture• 7th October: Exploring Big Data and communicating insights• 8th October: Big Data analytics life cycle• 9th October: Big Data analytics life cycle (concept of sampling data and used cases)• 10th October: Big Data analytics in industry and panel discussion	
Outcome Achieved/ Attained: <ul style="list-style-type: none">- Dr. Purushottam Bung on the first day set the context of the program by explaining about the evolution of big data analytics. He explained about the 5 Vs of big data analytics.- Then session I was started by Mr. Sai Bharath. He introduced the concept of data science and big data analytics to the audience. He laid the foundation for big data analytics and explained how big data is driving digital transformation. Then the session was taken over by Mr. Srujan and he	

explained about the big data in marketing and retail. He told about what is next best action for customers in real time.

- On the second day Mr. Sai explained in detail about the clusters in Hadoop. He explained various terminologies like Rack, Course and Hadoop architecture. He also told about the concept of HDFS, MapReduce, Yarn and Hive.
- On third day Mr. Sai Bharath took the practical example of Hadoop and explained how Hadoop can be used for data analysis. On the same day Mr. Debayan Roy also explained the concept of data insight communication using a industry used case.
- On fourth day Ms Divya introduced various other tools like Jupyter, Python, GitHub and PySpark to the audience. She explained how these tools can also be used for analyzing data. Further the session was taken over by Mr. Shreyans and he explained about the concept of image analytics.
- On fifth day the Ms. Divya explained briefly about the concept of sampling as it is very important in data analysis. Later on Mr. Srujan explained the concept of fraud analytics.
- On the last day Mr. Divya explained about the structured and unstructured data available with the help of used case. Later on Mr. Jishnu explained about the concept of sentiment analysis.
- At the end panel discussion was held where in all the speakers explained about how data analysis is happening in various sectors like financial sectors, health sector, fitness sector etc. All the speakers also shared their career journey which motivated all the participants.

Feedback & Coordinator Comment:

The entire program was very well received by all the participants. All the participants appreciated the program and were happy to have deeper knowledge on various concepts related to big data analytics. During the sessions participants had a chance to know how various new tools like Hadoop, python, jupyter, spyder, pyspark etc works. Everyone appreciated the program and motivated the organizers for many such programs in the future.

What is Hadoop?

- ✓ An open source framework that is used to efficiently store & process large datasets ranging in size from gigabytes to petabytes of data.
- ✓ A framework that allows you to store data Big Data in a distributed environment, such that you can process it parallelly.
- ✓ A collection of open source software utilities that facilitate using a clustered network of multiple computers to analyze & process massive datasets in parallel more quickly.
- ✓ The term Hadoop is often used for both hardware evolution and software evolution.

Priya Jain Dr. Santhosh M Sai Bharath

Priya Jain Prof. Nagarath Sai Bharath

Concepts of Hadoop

- ✓ HDFS
- ✓ Map Reduce
- ✓ Yarn
- ✓ Hive

Simple Random Sampling

Example

Every member of the population has an equal chance of being selected.

Qn: How happy are you with your decision to join the college?

You want to select a simple random sample of 100 students of College X.

You assign a number to every student in the database from 1 to 1000, and use a random number generator to select 100 numbers.

Bias?

No Bias

A/B Testing

HOW BIG IS ECOMMERCE FRAUD?

Annual online payment fraud losses from e-commerce, airline bookings, money transfer and banking services will reach \$48 billion by 2023 (from \$22 billion in 2018).

HOW BIG IS IMAGE ANALYTICS?

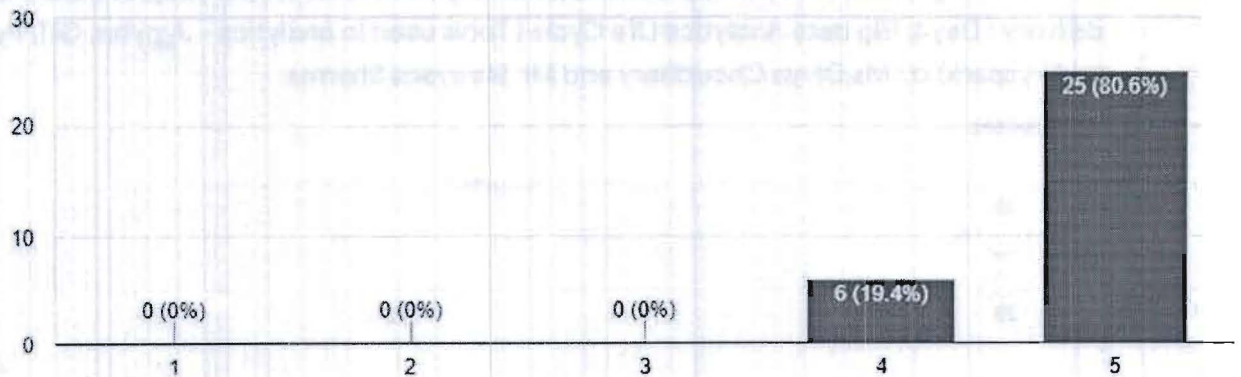

- 80% of the unstructured data that is generated in the form of images and objects
- Where is Image Data Generated?
 - Healthcare
 - Travel/Tourism
 - Social Media/ Smart phones
 - Autonomous Driving
 - Retail
 - Architecture
 - Product Design
 - Sports
 - Form Data (generated in Financial Institutions, Government Institutions etc.)
 - Scientific Applications (molecular biology, chemometrics etc.)

DETAILED AGENDA FOR THE CEP ON BIG DTA ANALYTICS

Date: 5th October to 10th October 2020

Time: 11 am to 1 pm

Date	Day Name	Module Name	Speaker/Trainer	Estimated Time (mins)
5 October	Day 1: Introduction to Big data analytics	Opening note on the webinar programme and importance of Big data analytics	RV team/Dr.Bung	10
		What is Data science? Who is a data scientist? Who is a big data scientist?	Sai Bharath	15
		Big data powered Data Science (5Vs etc)		15
		Illustration of speed/size in big data vs Traditional set-up		15
		Big data powered Data Science - Illustration	Srujan	15
		Overview of some Industry use cases - Data science with Big data in Marketing, Data Science with Big data in Finance/Ecommerce, Sentiment analysis		20
6 October	Day 2: Hadoop concepts and Architecture	Hadoop Architecture overview	Sai Bharath	5
		Storage systems in Big data vs SQL		15
		Map Reduce concept and Illustration		20
		Concepts and Working with HIVE		30
		Architecture - End to end		20
7 October	Day 3: Exploring Big data and communciating insights	Exploratory Data Analysis (EDA) in Big data	Sai Bharath	15
		Map Reduce Illustration in Depth for a EDA task		15
		Pre Processing/Data Preparation	Debayan Roy	30
		Data Insight communication - Industry use case		30
8 October	Day 4: Big data analytics Life cycle	Tools used in analytics - Jupyter, GIT, Python and Pyspark	Divya	30
		Analytics methodology		30
		Image analytics - Industry use case	Shreyans	30
9 October	Day 5: Big data analytics Life cycle	Concept of Sampling data, Use case	Divya	45
		Fraud analytics - Industry use case	Srujan	45
10 October	Day 6: Big data analytics in Industries (11-1)	Dealing with unstructured data, use case	Divya	45
		Sentiment analysis	Jishnu	45
	Big data analytics Way forward (2-4)	Keynote, Moderator	RV team/Dr.Bung	10
		Panel Discussion - each speaker 15 mins for her/his topic	Dr. Bung, Divya, Jishnu, Srujan	70
		Closing note	RV team/Dr.Bung	10

RV Institute of Management®

Affiliated to Bengaluru Central University.

Approved by AICTE, New Delhi. Accredited by NAAC with 'A+' grade.

Rastreeya Sikshana Samithi Trust
R V Institute of Management

Go, change the world

Certificate of Participation

This is to certify that,

CHANDRIKA KRISHNAN

has successfully participated in the One Week Continuing Education Program on “Big Data Analytics” organized by R V Institute of Management, Bangalore, from 5th to 10th October, 2020.

Dr. Purushottam Bung
Professor and Director
R V Institute of Management

FDP on 'Quantitative Data Analysis using R'

Date: 2 nd -11 th Nov, 2020	Venue: Webinar / Zoom meeting
Time: 04.30pm to 06.00pm	Event : Faculty Development Program
No. of Participant: 120	Event Convener: Dr. Purushottam Bung, Dr. Padmalini Singh Event Coordinator: Prof. Priya Jain

Objectives

- The FDP was intended to support researchers, consultants, and data analysts to:
 - Have a clear understanding of fundamentals of quantitative research
 - Have hands on R software tools for data analysis
 - To help them acquire a new skill set by learning R

Agenda/Flow of the Event

(Dr. Ashish Singh, IIT Bombay) 04:00 PM - 06:00 PM		(Mr. Shankar MM) Mentor – CARES, Bangalore) 04:00 PM - 06:00 PM
Session 1 2 nd Nov, 2020 (Monday) Measurement & Scaling	Session 2 2 nd Nov, 2020 (Monday) Measurement & Scaling	Workshop Session 11 7 th Nov, 2020 (Saturday) Introduction to R (Basics)
Session 3 3 rd Nov, 2020 (Tuesday) Questionnaire Design	Session 4 3 rd Nov, 2020 (Tuesday) Data coding	Workshop Session 12 8 th Nov, 2020 (Sunday) Testing of Hypothesis (Parametric & Non-Parametric tests)
Session 5 4 th Nov, 2020 (Wednesday) Sampling & Sampling Distribution	Session 6 4 th Nov, 2020 (Wednesday) Sampling & Sampling Distribution	Workshop Session 13 9 th Nov, 2020 (Monday) Correlation & Regression
Session 7 5 th Nov, 2020 (Thursday) Hypothesis testing	Session 8 5 th Nov, 2020 (Thursday) Inferential statistics (including testing of statistical significance)	Workshop Session 14 10 th Nov, 2020 (Tuesday) Exploratory Factor Analysis And alpha assessment
Session 9 6 th Nov, 2020 (Friday) Multivariate analysis	Session 10 6 th Nov, 2020 (Friday) Correlation and Regression (testing and interpretation)	Workshop Session 15 11 th Nov, 2020 (Wednesday) Overall Practical Approach towards questionnaire-based data analysis using R

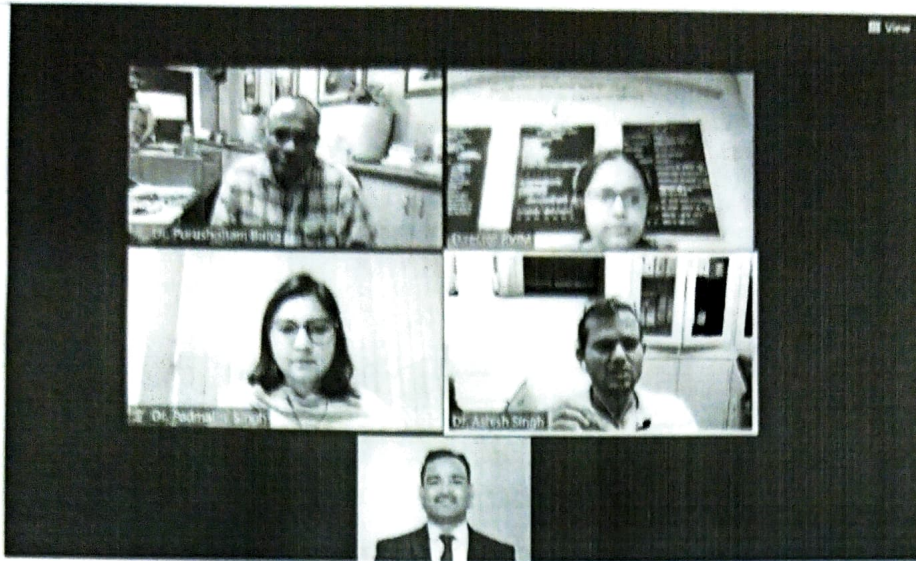

Outcome Achieved/ Attained:

The FDP was designed in two parts wherein first 5 days Dr. Ashish Singh, Assistant Professor, IIT Bombay delivered the fundamentals of quantitative research, clearing the concepts right from measurement and scaling, questionnaire design and data coding, sampling and sampling distribution, Hypothesis testing and data analysis. Once the participants gained conceptual clarity, rest 5 days were dedicated for workshop where participants were simultaneously practicing the fundamentals of quantitative research right from measurement and scaling, questionnaire design and data coding, sampling and sampling distribution, Hypothesis testing and data analysis. This approach of theory followed by practice was successful in the following ways:

- Participants had a better understanding about the fundamentals of quantitative research right from measurement and scaling, questionnaire design and data coding, sampling and sampling distribution, Hypothesis testing and data analysis.
- Participants were able to understand the basics of R programming.
- Participants were able to run the codes following the expert and practicing simultaneously on their own. They were able to generate the results.
- Participants were able to do the basic statistical analysis using R.
- The FDP was helpful for academicians, researchers, consultants and executives to use R for the quantitative research.

10 days FDP was completely appreciated by the participants. The expert's talk followed with the workshop was very helpful in practicing the concepts learnt by the participants.

Feedback & Coordinator Comment:

The FDP program was received much appreciation by all the participants. The participants also valued and enjoyed the interaction with the experts as well as during the FDP. The participants have requested to organize FDPs and workshop on research in future too.

2 Days SDP

on

Understanding the Nuances of Online Trading

Date: 29th and 30th December 2020

Venue: Zoom webinar

Time: 11 am to 1 pm

Event : Webinar

No. of Participant: 180

Event Coordinator: Prof. Dileep
Prof. Priya Jain
Prof. Vallabh N
Prof. Pooja T

Objectives

- To gain deeper understanding of fundamental concepts related to investing
- To understand the basics of stock trading
- To understand the concepts related to fundamental analysis and valuation techniques
- To understand the basic concepts of technical analysis for beginners
- To understand basics of trading through live demonstration

Agenda/Flow of the Event

- 29th June- Introduction to the World of trading and basics of valuation
- 30th June- Live trading and basics of Technical Analysis

Outcome Achieved/ Attained:

- Dr Bung started the SDP on 29th December with the introduction and importance of investing and trading. He explained the role of savings and how wealth should be created. Dr. Bung also took the audience through a brief evolution of capital markets in India and provided some interesting statistics. He explained wealth creation using stocks by illustrating the growth story of Infosys since its IPO.
- The proceeding then was taken over by the resource person Mr. Himanshu Mayne. With a flair for finance, the resource person thoroughly engaged the audience on day one with important fundamental concepts that one must know for effective stock picking like P/E Ratio, EPS etc. He explained a few strategies like valuation and how to effectively identify undervalued stock for superior gains.

- On day 2 of the SDP, the resource person demonstrated live trading and took the audience through the process of basics of technical analysis like support and resistance, trend analysis, RSI etc. He also enlightened the new traders about the pitfalls that one must be aware of.

Feedback & Coordinator Comment:

The entire program was very well received by all the participants. Everyone appreciated the efforts of the resource persons and have their interest to attend many more such sessions. Motivating and encouraging participants to take up stock trading by equipping them with the basic skills required was the key highlight of the two day SDP.

Bengaluru, Karnataka 560 041

Report on FDP on 'Learning Management from Gitopanishads.'	
Date: 22nd February'21 to 26th Feb'21.	Venue: RV Institute of Management
Time: 4.00 to 5.00pm	Faculty In charge – Dr. Anupama Malagi
About the FDP: Management Lessons from Gita, Ramayana, Mahabharat and Upanishads- the objective of the FDP: <ul style="list-style-type: none">• Bring out the management lessons given by each of the scriptures -Ramayana, Mahabharat, Upanishads and Bhagavad Gita.• The richness and depth of these ancient scriptures the type of knowledge they give to today's millennial world.	

Details of the FDP

Resource Persons of the FDP -

Dr A H Chachadi. Former Dean and Director Kaushali Institute of Management.

Dr.M.R. Dixit Former Professor -IIM-A.

The Five Day FDP:

Day One: Lessons from Bhagavad Gita: Introduction and overview of Bhagavad Gita, the context of in which the scripture is narrated. Lessons given to Arjuna. as a lesson for all.

Day Two Lessons from Ramayana -Overview and elaboration of the story of Ramyana and the characters of the story was brought out.

Ramayana lessons of managing interpersonal and organizational skills was elaborated. Instances of each character is used to bring out the lessons of failure, struggle and the ability to work and persevere to achieve goals is explain through certain characters as Hanuman and Jatayu.

Day Three Lesson from Mahabharat: Central story being family feud the resource person provided such an analysis of each main character that Mahabharat is elevated to a managerial context and decision-making is highlighted as the being the key to deciding the next situation for each character.

Day Four-Lessons from Chanakya Nethi – A historic writing that is distinct from the holy scriptures ,it more a political commentary book of those.

[Handwritten signature]

Day Five Upanishads: These scriptures bring out the disciplined life that is basis for any planned or well achieved work. The event had more than 200 participants from all over India.

Artificial intelligence was introduced by Hinton in 1981(Lecun et al., 2015). Deep learning was used initially for pattern recognition(Zhang et al., 2020).

Finance researchers and quantitative finance practitioners found that EMH isn't present in reality, on the contrary FMH stays close to real(Fama, 1970; Mandelbrot & Wheeler, 1983; Sharpe, 1964).

Traditional portfolio theories stress on the assumption that a rational investor is one who is risk averse and will maximize utility from investments without any biases. In other words, a rational investor will try to maximize returns which leads to utility maximization. Traditional portfolio theories ignore the fact that psychological influences and cognitive biases can work against the investors' ability to make good returns. In reality, these biases play a vital role in deciding how investors look and perceive events affecting their investment decisions. This is what Behavioral Finance attempts to do.

When we discuss effective asset allocation, the basic objective is to achieve near optimum diversification so that the overall portfolio risk can be mitigated and the returns can be maximized for the given set of risk constraints.

Let us look at a few basic biases that plagues investor rationality before we look at familiarity bias in detail. Then we will attempt to look at the three most common risks that rears its head during a crisis. We shall subsequently look at the role of familiarity bias in this entire investment universe during COVID.

1. **Contrast Bias:** It is based on the natural human tendency to compare two similar objects / events and upgrade or downgrade one against the other.
2. **Recency Bias:** This is a commonly recurring theme where the human mind

		Business	
3	Applications of Business Analytics in Industry <i>Why BA is increasingly becoming an important tool to stay a Market Leader and how it is being used in Industry?</i>	Mr. Doug Gray Director, Global Data - Data Science & Value Realization at Walmart	1730 to 1815 45 mts
4	Q&A		1815 to 1830 15 mts

Sl No	Content	Presenter	Time
5th June (Friday) 5.00 pm to 6.30 pm			
1	Business Analytics Educational Framework <i>Curriculum Framework of Business Analytics</i> <i>Why is industry partnership essential for BA programs?</i> <i>Best practices followed by leading Universities</i>	Dr Ramesh Rajagopalan Founding Partner, SetConnect Previously Faculty and Director of MSBA at UT McCombs School of Business	1700 to 1745 45 mts
2	Business Analytics - An opportunity for Academia <i>Increasing demand for BA professionals in Areas of Management, not just coders.</i> <i>Need for Academia to prepare students in areas of Applications & Specialisations, especially how to define problems and Model them for Analytics.</i>	Mr C S Venkatesh Founding Director SetConnect	1745 to 1800 15 mts
3	Q&A		1800 to 1815 15 mts
4	Summing up <i>Summarising the two day FDP & Learnings.</i> <i>Announcing the RVIM FDP on "Applications of Analytics in the Areas of Management"</i>	Dr Purushotham Bung, Director RVIM	1815 to 1830 15 mts

Outcome Achieved/ Attained:

- Dr Bung started the webinar on 4th June 2020 with *How the need for Analytics came up due to explosion of Data from Social Media*. In his talk, he explained that Data & Business Analytics has been prevalent in Business for ages. However, the way in which Business Analytics is being done has changed rapidly over the years with the advent of Social Media and consequent advent of Big Data.
- Dr. Ramesh reiterated the points highlighted by Dr Bung that there is huge gap in Business Analytics Talent supply. He went on to explain that Business Analytics is a scientific process of transforming Data in to Insights for better decision making. He went on to explain how Analytics has evolved from Descriptive to Predictive, Prescriptive and Cognitive.
He explained the Landscape for teaching Business Analytics at three levels – Foundation, Application and Specialization in all the Business domains of Sales, Marketing, Finance, and Operations & HR.
- Mr. Doug Gray highlighted that it is difficult for Technology & Data Science to do well in Industry and went on to explain the Top 10 reasons why Business Analytics Projects fail in Industry. He went to explain the importance of defining the Problem properly and having a clear Objective/KPIs (Key Performance Indicators). There is a need to develop the Skill sets for defining the problem. He then went on to explain the other reasons for failure in Industry :
 - 1) Data Issues. Having the Right data in right form
 - 2) Misapplying the model. Need for proper Experimental Design.
 - 3) Solving a problem that is not a Business priority
 - 4) Communication
 - 5) Change Management
 - 6) Unrealistic Expectations
 - 7) Project Management
 - 8) Excessive focus on the Model, Technique or Technology. Model is a means to an end. Technology keeps changing, Balance between aiming for perfection and Delivery.
 - 9) Getting from Sandbox Model to Production System

Feedback & Coordinator Comment:

The entire program was very well received by all the participants. It was a wonderful experience to learn from foreign speakers how actually analytics works in industry. All the participants understood the importance of analytics in today's scenario and also the need for Academia to prepare students in the areas of analytics.

Brief profile of the speaker

Brief Profile of the Resources Persons

1. Dr. Ramesh Rajagopalan, Founding Partner, SetConnect Inc.; Ex-Faculty & Director of MSBA at UT McCombs School of Business, USA

Dr. Ramesh Rajagopalan is a seasoned leader with over 20 years of industry experience in leading large teams and delivering customer value in the areas of Marketing Analytics, Blockchain Technologies, Cloud Computing, Supply Chain and Business Strategy. Dr. Rajagopalan has a unique blend of academic and

Page 5 of 12

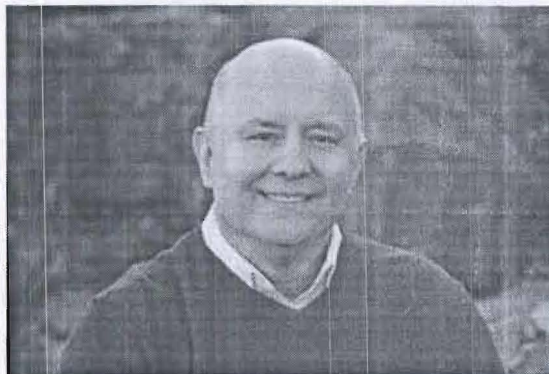

corporate leadership experience. He has held senior faculty positions at various leading universities including the University of Texas Austin McCombs School of Business. He has held leadership positions in academia as well as in large corporations such as Dell, Deloitte Consulting and IBM. He currently serves as a strategist and advisor to senior executives at global corporations as well as federal agencies. He provides leadership and guidance in the areas of business analytics, data science, marketing, healthcare and supply chain. Most recently he led a global marketing analytics team at Dell. Under his direction, his team implemented advanced analytics solutions leveraging “big data” to predict, classify and target high value customers. His team delivered several hundred million \$ revenue impact to the organization. Prior to this role, Ramesh served as the global practice executive in the Cloud Computing practice at Dell Services. He led a team of pre-sales strategists, cloud experts; engaged in strategic sales/account planning and generated multi-million \$ in revenue. In leadership roles at Dell and prior to Dell including SmartOps (now SAP), Deloitte, IBM and i2 Technologies (now JDA), Ramesh led diverse global analytics teams and was responsible for delivering multi-million \$ cost savings at several Global 100 companies. Dr. Rajagopa is driven by his passion for industry-university collaboration. Throughout his career he is privileged to work with executives from global companies striving to drive business value through analytics.

He is an internationally recognized speaker and industry expert in Advanced Analytics, Customer Insights, Supply Chain, and Digital Strategy.

Career Highlights:

- Unique blend of academic and corporate leadership experience
- Senior role directing Master of Science in Business Analytics (MSBA) at UT Austin McCombs School of Business
- Leadership roles at Dell, Deloitte Consulting and IBM
- Globally recognized speaker and expert in the area of Business Analytics

2. Doug Gray, Director, Global Data at Walmart, USA

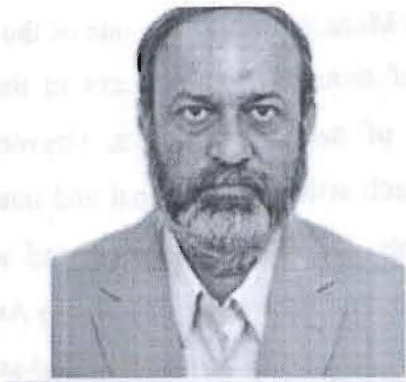

Doug Gray is a senior executive leader specializing in integrating Data & Analytics into Corporate

Strategy across the enterprise to achieve measurably impactful, sustainable strategic competitive advantage; considerable expertise in leading large-scale programs involving sophisticated business systems design, delivery execution, and operations leveraging Analytics, Data Science, Business Intelligence and Information Technology to generate significant, tangible economic value & business impact across a variety of industries, including most notably Airline, Travel & Hospitality, Health Care, and Financial Services. Key core experience, expertise, qualifications & capabilities include: Advanced Predictive & Prescriptive Analytics Data Science, AI & Machine Learning Exceptional Strategic Planning & Execution Skills Complex Enterprise Operations Optimization.

Career Highlights:

- A seasoned corporate executive and a proven leader
- Adjunct professor of Business Analytics at Southern Methodist University (SMU) Data Science Program and Cox School of Business
- Leadership roles at Walmart, Southwest Airlines, BMC Software, AMR Corporation, Sabre Technologies
- Renowned speaker and expert in the area of Data Science, Corporate Leadership and Business Analytics

3. Mr. C.S Venkatesh

Mr Venkatesh is the Founder and CEO of MetaCog Solutions Pvt. Ltd., Bangalore.

MetaCog Solutions provides skill development solutions in the supply chain and operations management areas. Affiliated with the Automotive Skill Development Council and the Indian Institute of Materials management, the company provides industry-focused, role-based training for working professionals and students wishing to make a career in supply chain management.

Before starting MetaCog, Mr Venkatesh set-up and managed Fugo Creative, a graphic design company and Sirius Consulting Pvt Ltd – a rural BPO which provided mortgage processing services for the US market.

Prior to his serial entrepreneur journey, he was Director, Sales Consulting for i2 Technologies in India and worked with key Indian customers including Maruti Udyog, Indian Oil Corporation and Agro Tech Foods. He also held positions in Baan Asia Pacific, Singapore Technologies, ITC Infotech, Cummins India and NIIT. He has had roles in managing development, consulting and pre-sales with a focus on in the areas of manufacturing and supply chain management for automotive and electronics industries.

Mr Venkatesh holds a bachelor's degree in engineering from KREC Surathkal, and an MBA from XLRI, Jamshedpur.

4. Dr Purushottam Bung, Professor and Director at RV Institute of Management

Dr. Purushottam Bung is an engineer with a rich experience of around 26 plus years in Academia and industry (domestic and international). He completed PGDM from Melbourne Business School, Australia, one of the top 10 B-schools in the world and MBA from Monash University, one of the top universities in the world. He has a rich entrepreneurial experience of around 10 plus years in the food processing industry. He is on the expert/advisory/editorial panel of many Institutions, Universities, NGOs and journals. Dr. Bung has presented and published 22 research articles in national and international refereed journals and undertaken several consultancy assignments. Dr. Bung was conferred with “Enterprising Academic Leader of the year (South India)” as part of National Education Excellence Awards in 2018. He was conferred with “Distinguished Educator” award in 2013. In 2015 he was awarded as ‘Best Director of a B-school in Karnataka’ as part of education excellence awards – 2015. He is member of many Associations and Institutional bodies. He is elected as FELLOW of World Academy of Productivity Sciences at Beijing, China recently. He is also a research fellow of Institute of Productivity, UK. Dr. Bung is offering management consultancy services to local Businesses, Institutions and entrepreneurs as well. Very recently he has completed a HarvardX course in collaboration with Pearson Global and Ureka Education group, UK on ‘Future of Learning’ anchored by Prof. Richard Elmore, Professor and authority in Education and Learning from Harvard.

A veteran in Supply Chain and Logistics domains, he is a regular speaker in Supply chain and Logistics/E-commerce related seminars and conferences in India and abroad.

Feedback/ Coordinators Comment:

Some facts about the case

Year 2000

- On the verge of shutting down
- Sales dropped to 2000 a month
- Too many complaints: engine seizures, electrical failures, oil leakages, daunting kick start,...
- Quality issues: Too heavy, difficult to maintain,
- Customer Experience deteriorating

Year 2016

- Sold 508099 motorcycles (Rs. 5226.87 Cr)
- Annualized growth of 56.14%
- Market share of 98% in mid size (250cc)
- EBITDA margin: 28.3% (401.49 Cr)

Thought Leaders Speak Series: “Leadership During Crisis”	
Resource Person	Mr Bhaskar Rao, IPS, Additional Director General of Police, Bangalore
Date: February 06, 2021	Venue: Seminar Hall, III Floor, RVIM
Time: 9:00am to 11.00am	Target Audience: I & III Sem MBA Students
No. of Participants: 200	Event Coordinators: Dr. Anupama K Malagi, Mr S K Manjunath
Objectives The objective of the Thought Leaders Speak series is – <ul style="list-style-type: none">➤ To inculcate the strong values and also➤ To facilitate students to learn from the life experiences of the illustrious personalities who are invited as part of these series.	
Brief summary of the Event RVIM organised the event where Sri Bhaskar Rao, IPS , ADGP, Bengaluru was invited to share his experiences during the COVID situation which was really challenging. Students of I & III Sem participated in the event and benefitted immensely from the talk.	

Profile of the Resource Person:

OVERVIEW OF SHRI. BHASKAR RAO, IPS
Additional Director General of Police

Sri. Bhaskar Rao is an Indian Police Service officer of 1990 Batch and allotted to Karnataka Cadre.

Since then he has held several positions as Superintendent of Police and Deputy Commissioner of Police in Mandya, Davanagere, Shimoga, Hubli-Dharwar City, Kodagu, Bangalore City and Bangalore Rural District.

Sri. Bhaskar Rao also served as **Commissioner of Police, Bangalore City** overseeing 11 DCP's (Law and Order & Traffic) and 11 DCP's of Special Units of Bengaluru City. His tenure witnessed a roller coaster ride with **ZERO law and order event**. It was the peak of daily **Anti CAA protests and rallies** and the pressure of management of Bangalore City during the onset and **peak of COVID-19**.

Sri. Bhaskar Rao was closely associated with protection of Foreign Companies in the aftermath of 09/11 attacks in USA while he was Superintendent of Police, Bangalore Rural District.

He worked as Managing Director, (KEONICS) of Karnataka State Electronics Development Corporation Limited where several innovative schemes were started. Sri. Bhaskar Rao was also Director, Operations in KSRTC at a time when the organisation was metamorphosing into a corporate organisation like Induction of Volvo Buses, Electronic Ticketing Machines, Biofuels, New Software for Depot Computerization and Booking of Tickets and Commuter Relation.

Sri. Bhaskar Rao served as **Transport Commissioner, Government of Karnataka** during which time Revenue collections increased two fold, Infrastructure expanded and the personnel were skilled, Licence and Vehicle Registration was made Online and Chip based Smart Cards started being issued instead of Licence books and R.C. books.

Sri. Bhaskar Rao also served as **Commissioner of Police, Mysore City**, Inspector General of Police of several Verticals like Anti-Terror, Central Range, Railways, Training, Forest, Commissioner of Police, Belgaum City and Northern Range and he served as Additional Director General of Police, Karnataka State Reserve Police overseeing 12 Battalions and 2 Battalions of India Reserve Police Battalion.

As Inspector General of Police, Internal Security, he was instrumental in creating Karnataka State Industrial Security Force and laying the foundation to streamline and strengthen 4.60 Lacs Private Security Personnel and 1500 Private Security Agencies all over Karnataka. Under his leadership the Coastal Security Police

was strengthened by having excellent collaboration with Indian Navy, Coast Guard and Goa Shipyard.

At present again he is holding charge as Additional Director General of Police of Internal Security Division.

He is decorated with

- (1) President's Police Medal for Meritorious Service-2008.
- (2) President's Police Medal for Distinguished Service 2015.
- (3) United Nation's Medal for the Services Rendered in International Peacekeeping in War Zone, Kosovo, Yugoslavia-2000.

Innovation, Change, Dynamism and Strengthening and Empowering the Bottom of the Pyramid are his Professional Management Passion.

His Personal Passion is Teaching, Fitness and Long Distance Cycling.

Teaching Learning Centre	
“How Teachers can make a difference”	
Resource Person	Dr Shreepad Karmalkar, Professor, TLC IIT Madras Dr Edamana Prasad, Professor, TLC IIT Madras
Date: June 29 & 30 , 2020 July 1, 2020	Venue: Conference Hall, I Floor, RVIM
Time: 9:00am to 11.00am	Target Audience: RVIM Faculty members
No. of Participants: 20	Event Coordinator: Dr. Anupama K Malagi
Objectives The objective of the Teaching Learning Centre is <ul style="list-style-type: none">➤ to strengthen the Teaching Learning environment in the Institution➤ To encourage innovative pedagogical tools	
Brief summary of the Event RVIM TLC organised the orientation session in association with TLC, IIT Madras for the benefit of all the faculty members. The following is the schedule for the 3 day program:	

Time table:

Jun 29	2-00 to 3-30 pm	How and how much difference can a teacher make
Jun 29	4-00 to 5-30 pm	The concept of Learning outcome
Jun 30	2-00 to 3-30 pm	Recipe for effective and efficient teaching - 1
Jun 30	4-00 to 5-30 pm	Recipe for effective and efficient teaching - 2
Jul 01	2-00 to 3-30 pm	Setting up a TLC (for TLC core team)

All sessions are extensively activity based.

The Recipe for Effective and Efficient Teaching covers the following.

- 1) Begin by designing questions for assignments, tutorials and (may be) tests or quizzes
- 2) Write learning outcomes (LOs)
- 3) Organize content around LOs
- 4) Content delivery:
 - pay due attention to your body language and how you speak
 - use analogies in explanations
 - power point versus blackboard
- 5) Test / quiz students frequently and provide feedback on students' answers to questions
- 6) Seek feedback on your teaching from students and colleagues
- 7) A teacher must appear to the students as competent and caring

Profile of the Resource Persons:

Dr Shreepad Karmalkar is a Professor of Electrical Engineering at IIT Madras (IITM). His twin interests are semiconductor devices and education. For his research contributions, he has received the 2006 Vikram Sarabhai Award and a 2007 IBM Faculty Award. His video lecture series on semiconductor devices and research skills hosted on internet are quite popular. He is an Associate Editor of IEEE Transactions on Education, an IIT Council Member, Head of IITM Teaching Learning Center, and Chairman of AICTE's Board of PG Education and Research. He was Chairman of (south zone) JEE 2007, a Member of National Working Group of DIT GOI in Nanotechnology, and a member of AICTE's Board of UG Studies. He has held visiting assignments at US universities, namely - UC Santa Barbara, RPI and USC. He is a strong espouser of holistic education, and a multilingual.

Dr Edamana Prasad is working as a Professor at Department of Chemistry, Indian Institute of Technology Madras. His research interests are in the area of light-matter interaction. In addition to Chemistry research, he is also interested in teaching – learning. He was former head of Teaching Learning centre (TLC) at IIT Madras and presently associated with the centre as a core team member. He has been awarded the prestigious Alexander von Humboldt Fellowship (AvH) from Germany and Young Faculty Recognition Award (YFRA) from IIT Madras for his contributions in research and teaching. He has conducted several faculty development programs and teaching workshops for faculty members in the higher education sector of the country.

Outcome Achieved/ Attained:

This program helped us in learning from the vast experience of the resource persons and understand the best practices adopted by the TLC at IIT Madras.

It also helped us in strengthening the teaching learning environment in the Institution.

Annexure 3
Brief profile of the speaker

Brief Profile of the Resources Persons

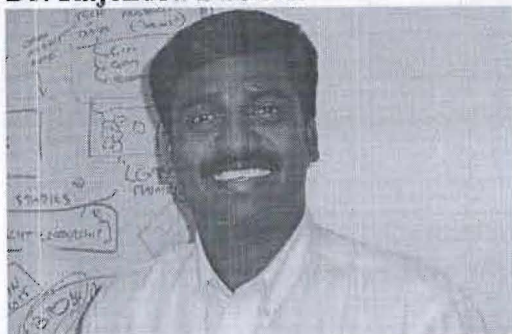

1. Mr Ravi Shankar

- Ravi Shankar has a basic degree in Electronics engineering from the university college of engineering Bangalore, and a research background in Aerospace engg. from the Indian Institute of Science, Bangalore.
- After this, he joined the Dept. of Atomic Energy (Power Projects Division) where his responsibilities were primarily in the installation, test and commissioning of Distributed Digital Control Systems, SCADA and PLC systems used in Atomic Power plants.

- Parallely, he was also responsible for setting up tropo-scatter and line-of-sight antenna systems used by the Ministry of Communications.
- After 12 years with the Dept. of Atomic Energy, he joined a French oilfield services company, Schlumberger, who had a very strong global presence in Automatic Test Equipment for testing VLSI boards used in radar applications. In this domain, his responsibilities were in maintaining radar and avionic systems deployed by the Defense and Space Ministries with mixed signal (analog & digital) test capabilities.
- He spent 4 years with Schlumberger after which a two years stint followed at the the Research labs of Philips in Eindhoven where he was assigned to a group developing EW (Electronic Warfare) and ECM (Electronic Counter Measures) systems for use in NATO deployed applications
- Currently with Informatics Global, his interests are in training and managing the Company's large base of consortia clients across the country.

2. Dr. Rajendra Babu H

Dr. Rajendra Babu H has done his Bachelor in Science, Bachelors and Masters in Library and Information Science from Bangalore University. He has done his post master's training in "IT Applications to Library and Information Services" in National Centre for Science Information (NCSI), Indian Institute of Science (IISc), Bangalore. He has done his doctoral studies on "Open Access Journals" from the University of Mysore.

He has 24 years of professional working experience in Multinational companies (Hindustan Lever Research, GE Research, Brigade Corp., Capco, Symphony Services and Wipro Technologies) and Academia (Indian Institute of Science-IISc). Presently he is working as a faculty in the Dept. of Studies and Research in Library and Information Science, Tumkur University, Tumkur. He is also working as

- **Coordinator- Skill Development Cell**, Tumkur University
- **Served as a Nodal Officer – Rashtriya Uchchar Shiksha Abhiyan (RUSA)** for Tumkur University
- **Special Officer – ICT Initiatives** responsible for implementing recommendations of Knowledge Commission and RUSA at the Tumkur University level.
- **Nodal Officer – All India Survey for Higher Education (AICHE)** for Tumkur University
- **Nodal Officer – NIF Rankings** for Tumkur University

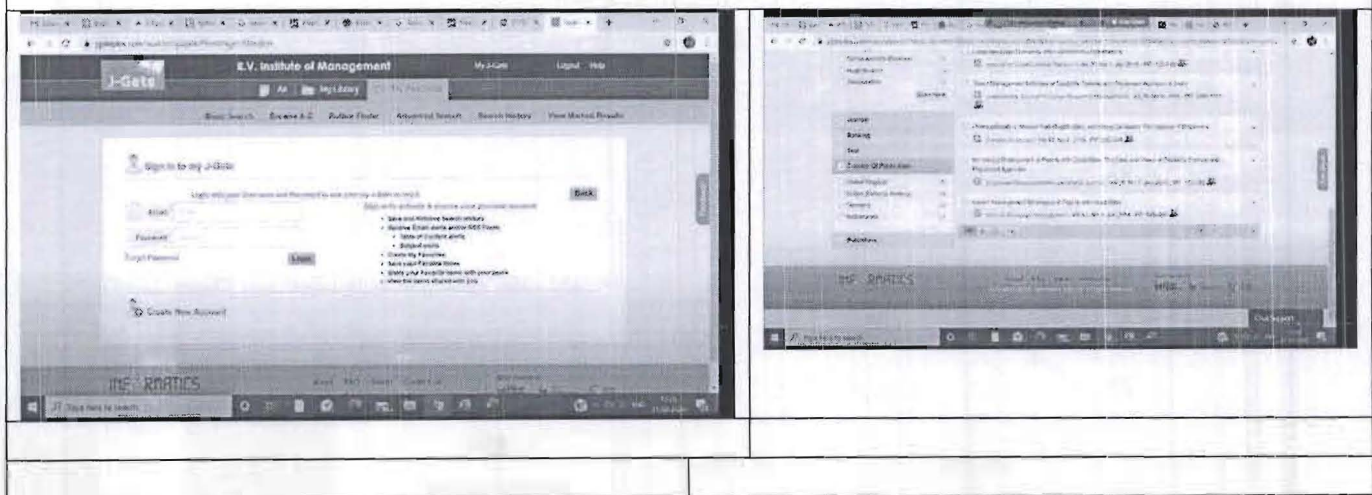

- **E-Attestation Officer – State Scholarship Portal, Tumkur University**

He is an excellent communicator and a small scale behavioral trainer as well. He possesses knowledge of Database Searching and Retrieval, Content/Knowledge Management, Database development. He has expertise in Content Research, Summarizing key financial services industry research reports, bringing out domain/technology alerts, newsletters and so on. Proficient in Library Services/ Management, Documentation, setting up corporate Consortiums, Journals/ Database sales and Training, Research and Analysis, Usage Tracking, Knowledge Management, Publishing, Web Based Information Services, Six Sigma Initiatives, marketing Information services and Administering/ creating corporate quality Delivery Methodologies. He has worked on SharePoint portal and Documentum. He has extensive experience in Developing and managing world-class Information and Knowledge centers, Content Research functions in HLL (Unilever), GE, Capco, Symphony Services Corp. and Wipro technologies as well as a good team player working with cross border teams.

He has published 68 papers in National/ International journals/ conferences and co-authored 4 books. He has been awarded best paper award for SIX of his publications. Presently 3 full time research scholars are working under his guideship.

He is a six sigma Green belt certified, NCC ‘C’ Certified and represented Karnataka State in ‘Volley Ball’. He is a member of professional organizations such as NCSI-NET, LIS-FORUM and Karnatak state library association (KALA). Presently serving as a governing council member and has served as General Secretary in Karnataka State Library Association (KALA), Bangalore, India.

Annexure 5 Photo Gallery

Constructing a search

- A student is working on the following paper
- It needs to find relevant articles
- How can I-Gate help in such a situation?

Results

R&D investment worldwide (2016 figures)

- Rough estimate of R&D investment, as a % GDP
- Japan 3.67%
- Sweden 3.60%
- Finland 3.48%
- USA 2.70%
- EU average 2.16%
- China 1.40%
- India ~1.00%

TraitBank (Integrated into EOL)

A searchable, comprehensive, open digital repository for organism traits, measurements and other information.

Conclusion

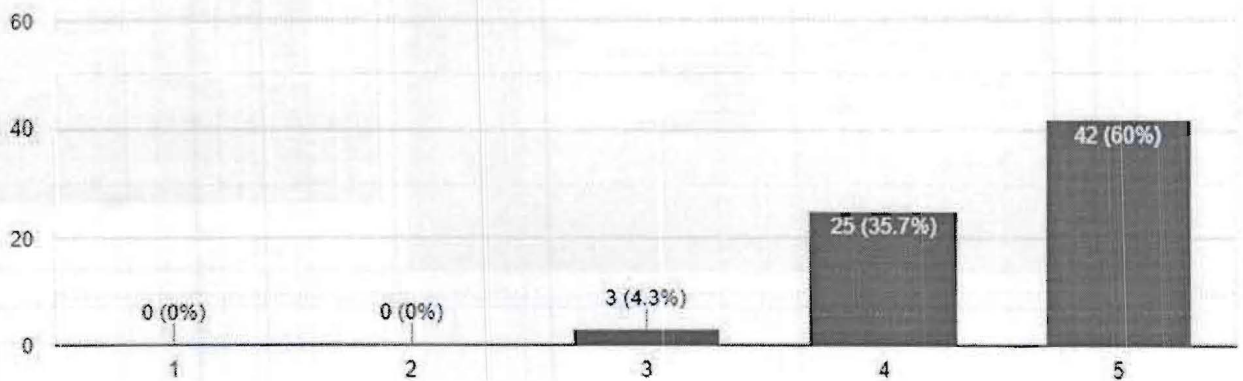

- Resources in general play a significant role in research
- Skilled LIS professional play a key role in assisting researchers
- Internet has revolutionised the way we work today
- Effective use of ICT and ICT enabled tools and technologies would take a long way in helping the user / researcher in
 - Web discovery
 - Federated search and so on..

Good

Excellent

Very good

INTERESTED

Nice

It will be very helpful and will be waiting to join these amazing resource persons again.

Resource persons have shared the required information

It was informative.

Very well organized and informative and wish to be a part of its sessions in days to come.

Well done, As a sequel to the research methodology ,adds lots of value

Implement it.

It was really a good experience and the resource person covered the content very elaborate manner

Highly informative

NO

Excellent.

i have learn a lot about research as well as how to find about topic related to it. All guests are very prominent as well as learned. i want to join more and more events of this organisation.

Helpful

It would be great for us

Excellent

The organising board has done a great and wonderful jobs.

It was a nice session for students as well as for the research scholars for their future. Thank you

Good idea

Its good and topics are also good for FDP

Very informative and useful

Such wonderful programe.

Fdp for week but make it half day 10 to 1

Thank you for the wonderful session. It was very short. Request to conduct a week FDP on the same topic

**Report on STUDENT DEVELOPMENT PROGRAMME
IIC – Innovation Ambassador
Online sessions
Conducted by RV. Institute of Management, Bangalore**

RV Institute of Management, Centre for Entrepreneurship, Innovation and Incubation organised the Student development Programme -A four-day series aimed at informing and inculcating new entrepreneurial methods of Thinking and encouraging Entrepreneurial Innovation. The programme was conducted from 21st July to 24th July' 2020.

The Session were conducted online for registered participating students. Resource person for the session were IIC Innovation Ambassadors, Faculty at RVIM.

OBJECTIVES:

Student development Programme organised and conducted by RV Institute of Management, Centre for Entrepreneurship, Innovation and Incubation. A four-day series aimed at informing and inculcating new entrepreneurial methods of Thinking and innovation.

BENEFITS:

The Session provides an understanding into new set of concepts and practises that are relevant to today's start-ups.

The sessions help participate in a dialogue on the topics of building new ideas that are well thought out to involve innovativeness.

The session caters to budding or aspiring entrepreneurs and also to any youth who wants to train as a better management practitioner.
