Scheme

Indian Cyber Crime Coordination Centre (I4C)

Impact

The Exam was in progress on the day and around 180 students and 30 staff members could be reached without verbal communication. The impact was greater as the students were in corridor for longer time before and after examination.

Central Government has taken steps to spread awareness about cyber crimes, issue of alerts/advisories, capacity building/training of law enforcement personnel/ prosecutors/ judicial officers, improving cyber forensics facilities etc. to prevent such crimes and to speed up investigation. The Government has launched the online cybercrime reporting portal, [www.cybercrime.gov.in](http://www.cybercrime.gov.in) to enable complainants to report complaints pertaining to Child Pornography/Child Sexual Abuse Material, rape/gang rape imageries or sexually explicit content. The Central Government has rolled out a scheme for establishment of Indian Cyber Crime Coordination Centre (I4C) to handle issues related to cybercrime in the country in a comprehensive and coordinated manner.

AICTE communicated through e mail Dt.27/5/2022 to conduct Cyber Jagrookta Divas and regularly hold an awareness programmes about Cyber Crime Reporting portal and National Helpline No.1930.

Accordingly RVIM Centre for Social Responsibility organized a floor art event to spread awareness on information security and use of strong pass words to ensure that the e usages are safe.

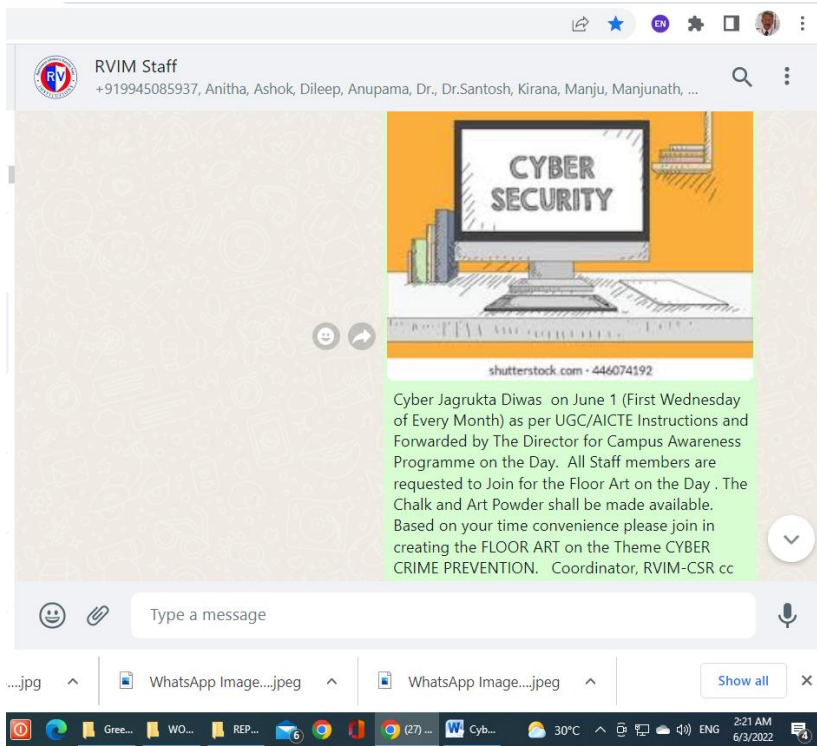

Floor art is a form of graphical representation of slogans and images and art work on the floor and made visible to all the people around from all the floors . The pictures draws the attention of students as they move around the campus.

This method was more at advantage as the Term end exam was in progress on the day and all the students had to pass a common passage at entrance and the message reached to a greater extent.

The theme for this awareness programme was to stress importance of frequent change of password and to adopt strong pass words to keep all the data secure at all times
