Report Title

FLASH MOB BY DOCTORS TEAM ON WORLD NO TOBACCO DAY

May 31, 2022

Scheme

National Programme for Prevention and Control of Cancer, Diabetes, Cardiovascular Diseases and Stroke (NPCDCS)

Impact

The music and dance cautioned the ill effects of Tobacco through Narration and Poster display. Enhanced engagement on the topic and effective in cautioning about dangers.

World No Tobacco Day (WNTD) is organized every year on May 31 to highlight the health and other risks associated with tobacco use, and advocating for effective policies to reduce tobacco consumption globally. WNTD was created by World Health Organization (WHO) in 1987 to draw global attention to the tobacco epidemic and the preventable death and disease it causes.

The National Health Mission (NHM) encompasses its two Sub-Missions, The National Rural Health Mission (NRHM) and The National Urban Health Mission (NUHM). The main programmatic components include Health System Strengthening, Reproductive-Maternal- Neonatal-Child and Adolescent Health (RMNCH+A), and Communicable and Non-Communicable Diseases. The NHM envisages achievement of universal access to equitable, affordable & quality health care services that are accountable and responsive to people's needs.

India is experiencing a rapid health transition with a rising burden of Non-Communicable Diseases (NCD) surpassing the burden of Communicable diseases like water-borne or vector borne diseases, TB, HIV, etc.

The Non-Communicable Diseases like Cardiovascular diseases, Cancer, Chronic Respiratory Diseases, Diabetes, etc. are estimated to account for around 60% of all deaths. NCDs cause considerable loss in potentially productive years of life. Losses due to premature deaths related to heart diseases, stroke and Diabetes are also projected to increase over the years.
