

7.3.2 Strategic Action Plan

Envisioning the Institution to become a world class Management Institute of Eminence has motivated everyone to think with the learner centric perspective to make the MBA Program more enriching program that has enabled holistic learning encompassing emerging technologies including AI alongside yoga and wellness.

Leveraging the academic autonomy, the Institution has successfully offered valued Executive learning programs as a Diploma Program in Business Analytics in collaboration with Boston IT Solutions India Pvt. Ltd., The program is being delivered with a well-designed curriculum and pedagogy to suit the requirements of executives and the market simultaneously.

For all new courses included in the curriculum, the institution ensures there are regular audits conducted in academics, administration, and library, ensuring optimum utilisation of the well-equipped facility and infrastructure to enhance the teaching and learning effectiveness. Strengthening the IT infrastructure viz., Lab for Emerging Technologies and Lab for Financial Markets were made available for the Institute.

The Institution plans to upgrade the existing IT labs and IT infrastructure in the campus while maintaining it comprehensively, supporting seamlessly in curriculum delivery and skill development of the students. It is also part of the strategy to renovate the entrepreneurship ecosystem of the college by the end of the next year. Silver Jubilee marks an excellent milestone in the journey of an academic institution, as our institution completes twenty-five years we plan to conduct impactful programs and the groundwork for the same is on the cards.
