4. Nature of Audit Work Assisted

- Verification of vouchers
- Books of accounts checking
- Compliance support
- Tally Software checking
- Tender Documents Checking
- Helping with SSA Scheme KTPP Act guidelines

5. Student Experience / Learning Reflection

My internship at BizCraft Advisors Pvt. Ltd. provided me with valuable practical exposure to the functioning of a professional audit and advisory firm. Practical knowledge was extremely beneficial for us because through the internship in the company, we received actual knowledge regarding the working of a corporate auditing company. Through the course, actual participation was obtained regarding the internal auditing done for government schools, block resource centres (BRCs), and district project offices (DPOs) through schemes such as Sarva Shiksha Abhiyan and Samagra Shiksha Karnataka. In addition, actual knowledge was obtained regarding the checking of vouchers, bills, ledgers, etc. The internship helped improve my knowledge regarding accounting principles, controls, and compliance, specifically in light of the public education sector. In addition, I acquired knowledge regarding documentation and

reporting, which includes creating audit observation and schedules. Audit exposure, specifically through field auditing, helped me grasp some issues, which include mistakes coming from basic bookkeeping, which rely heavily upon humans, and the absence of standardization and high turnover among employees. The internship helped enrich my analytical capabilities and increased my grasp regarding finance and auditing operations.
