*(Write in your own words – **minimum 150 words**)*

My learning experience at Prasad & Suresh Chartered Accountants was both informative and practical. During my time with the firm, I gained exposure to the real working environment of a Chartered Accountancy practice and understood how theoretical concepts are applied in professional situations.

I learned about various accounting and compliance activities such as maintaining books of accounts, preparation of financial statements, GST returns, income tax filings, and audit documentation. Observing these processes helped me understand the importance of accuracy, timelines, and adherence to statutory requirements. I also learned how proper documentation and verification play a key role in audits and client reporting.

One of the most valuable aspects of my experience was understanding professional ethics and client handling. The firm maintained a disciplined work culture and emphasized confidentiality, responsibility, and teamwork. Seniors and staff members were supportive and guided me whenever I had doubts, which made the learning process smoother.

This experience improved my practical knowledge, attention to detail, and confidence in handling basic accounting and compliance tasks. Overall, my learning at Prasad & Suresh Chartered Accountants was enriching and has helped me gain clarity about the professional responsibilities of a Chartered Accountant and the skills required for a career in this field.
