- ☐ Verification of vouchers
- ☐ Assistance in audit working papers
- ☐ Books of accounts checking
- ☐ Compliance support
- ☐ Others:

➤ .Compliance support , stock and asset Audit

5. Student Experience / Learning Reflection

During my audit internship at **Vibhuthi Consultants LLP**, I gained valuable practical exposure to professional auditing and developed strong skills in **team management, client handling, and effective communication with clients**. I actively worked with audit teams to plan and execute audit assignments, ensuring timely completion and proper documentation. I interacted directly with clients to collect audit evidence, clarify financial records, and resolve queries, which enhanced my professional communication and relationship-building abilities. I was involved in conducting various practical audits, including **asset verification, stock audits, and compliance audits**, which helped me understand real-world audit procedures and regulatory requirements. As part of my internship, I participated in audits for reputed companies such as **Lenskart, Blinkit, Tata Insurance, Reliance, and JSW Steel**. This internship helped me bridge the gap between academic knowledge and practical application, while strengthening my understanding of audit processes, compliance standards, and professional work ethics in a real corporate environment.

I sincerely thank Ms. Pooja Ma'am for her continuous guidance and support throughout my auditing learning journey.

I am grateful to CA Harshith K S for his valuable mentorship and practical insights into professional auditing.

I also extend my heartfelt thanks to RV Institute of Management for providing the auditing course and a strong platform for my academic and professional development.
