****5. Student Experience / Learning Reflection**

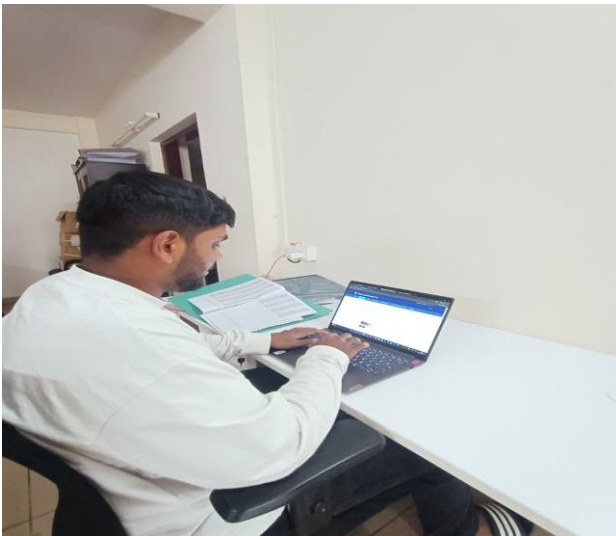

My Business Immersion Programme at Sowmya Shankar & Co, Chartered Accountants was a good learning experience and helped me understand how a CA firm works in real life. During my internship, I got exposure to different areas such as tax audit, statutory audit, GST audit, accounting, and statutory filings.

I worked on tax audit and statutory audit, where I helped in checking financial statements, verifying bills and vouchers, and understanding audit procedures. This helped me learn the importance of accuracy and proper documentation. I was also involved in GST audit, where I learned how invoices are verified and how GST returns are checked for compliance. In the accounting section, I assisted in maintaining books of accounts and understanding how daily

transactions are recorded. I also got hands-on experience in GST and TDS filing, which helped me understand how returns are prepared and filed within deadlines.

Overall, this internship helped me gain practical knowledge of accounting, auditing, and taxation. It improved my confidence, attention to detail, and understanding of professional work. The experience helped me connect what I learned in class with real office work and prepared me better for my future career.
