5. Student Experience / Learning Reflection

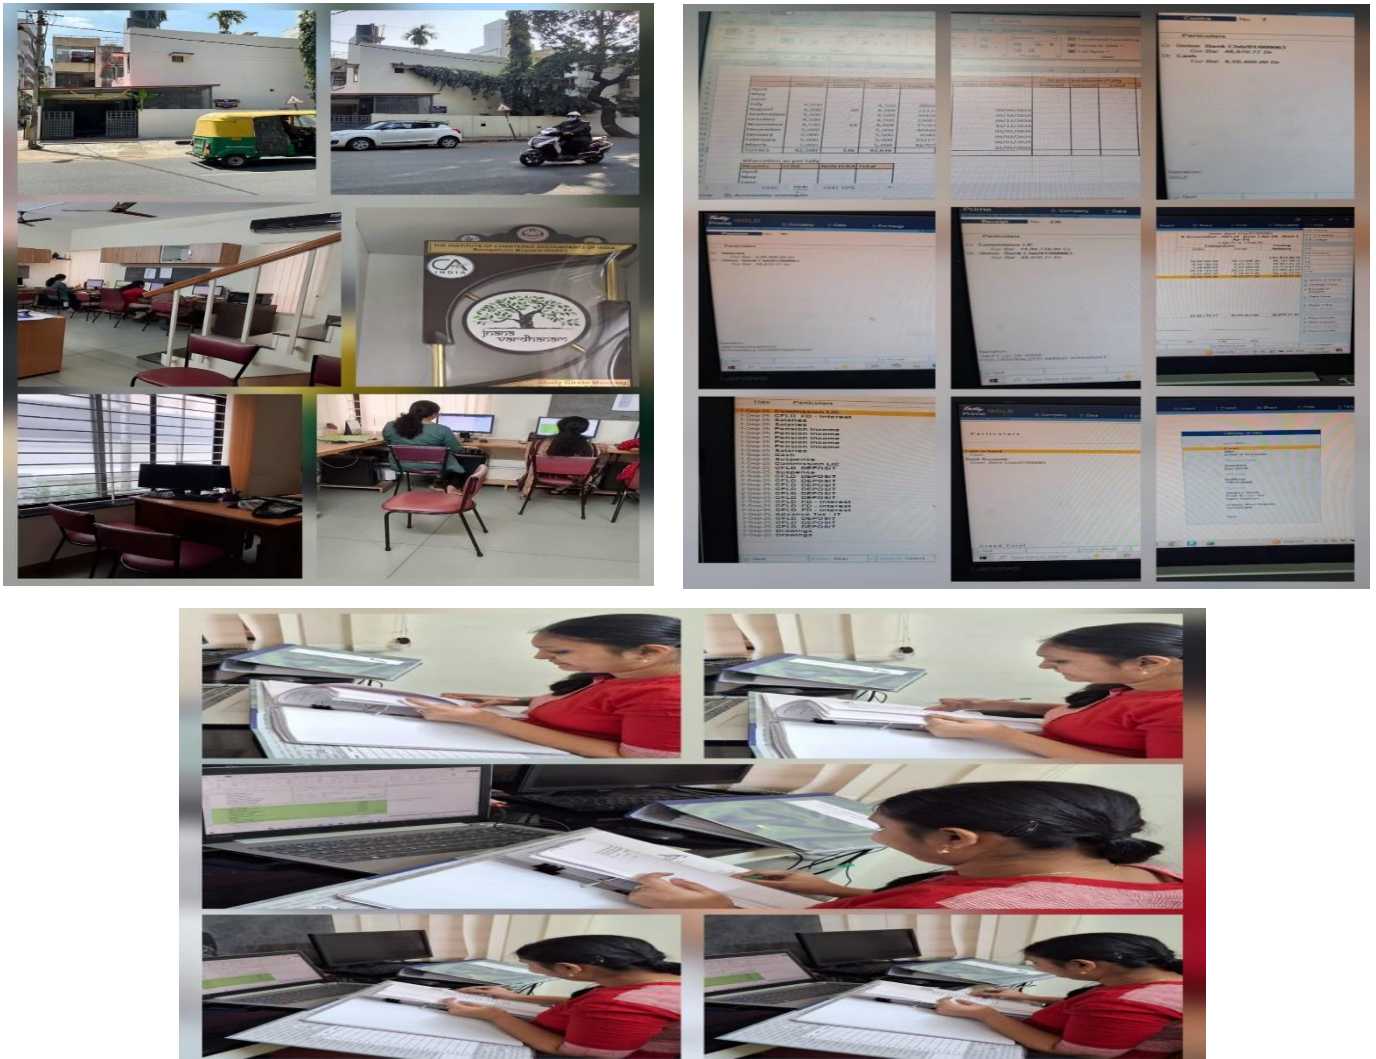

My MBA in Finance transformed me through rigorous coursework and practical auditing exposure at G. Anantha & Co. Mastering Excel, Tableau, and Python for financial modelling and TDS calculations bridged theory with real-world precision in vouching and digital payments analysis.

Key Insights: Fintech projects on rural UPI adoption via regression sharpened my data skills and ethical awareness, while peer feedback refined communication.

Challenges Met: Balancing internships with studies built time management and Tally ERP proficiency through persistence.

Lasting Value: These experiences fuel my Finance career with good working environment and learnings on BRS, Vouching and TDS calculations.
