Report AI Enablement (CFCD AI Workshop)

as part of Employability Skills Course

Date:19.05.2026	**Venue: Seminar Hall**
	Conducted by: Center for Career Development **Resource Persons: Mr. Vignesh Prasanna**

Overview:

Mr. Vignesh Prasanna conducted an insightful session on AI Enablement for 2nd Semester MBA students of Section C. The session introduced students to the growing role of Artificial Intelligence across industries and emphasized the importance of AI literacy for future professionals. Through practical examples and discussions, students gained an understanding of how AI tools can enhance productivity, decision-making, and career readiness in the digital era.

Objectives:

- To create awareness about Artificial Intelligence and its applications across industries.
- To familiarize students with emerging AI tools and technologies.
- To help students understand the impact of AI on careers and the future workplace.
- To encourage responsible and ethical use of AI in professional settings.
- To enhance students' digital competency and employability skills.

Agenda / Event Flow

- The session commenced with an introduction to Artificial Intelligence and its evolution.
- The resource person explained key AI concepts and real-world business applications.
- Students were introduced to various AI-powered tools used in workplaces.
- Discussions were held on the impact of AI on jobs, productivity, and decision-making.
- Ethical considerations and responsible use of AI technologies were highlighted.
- The session concluded with an interactive Q&A session, addressing student queries related to AI and career opportunities.

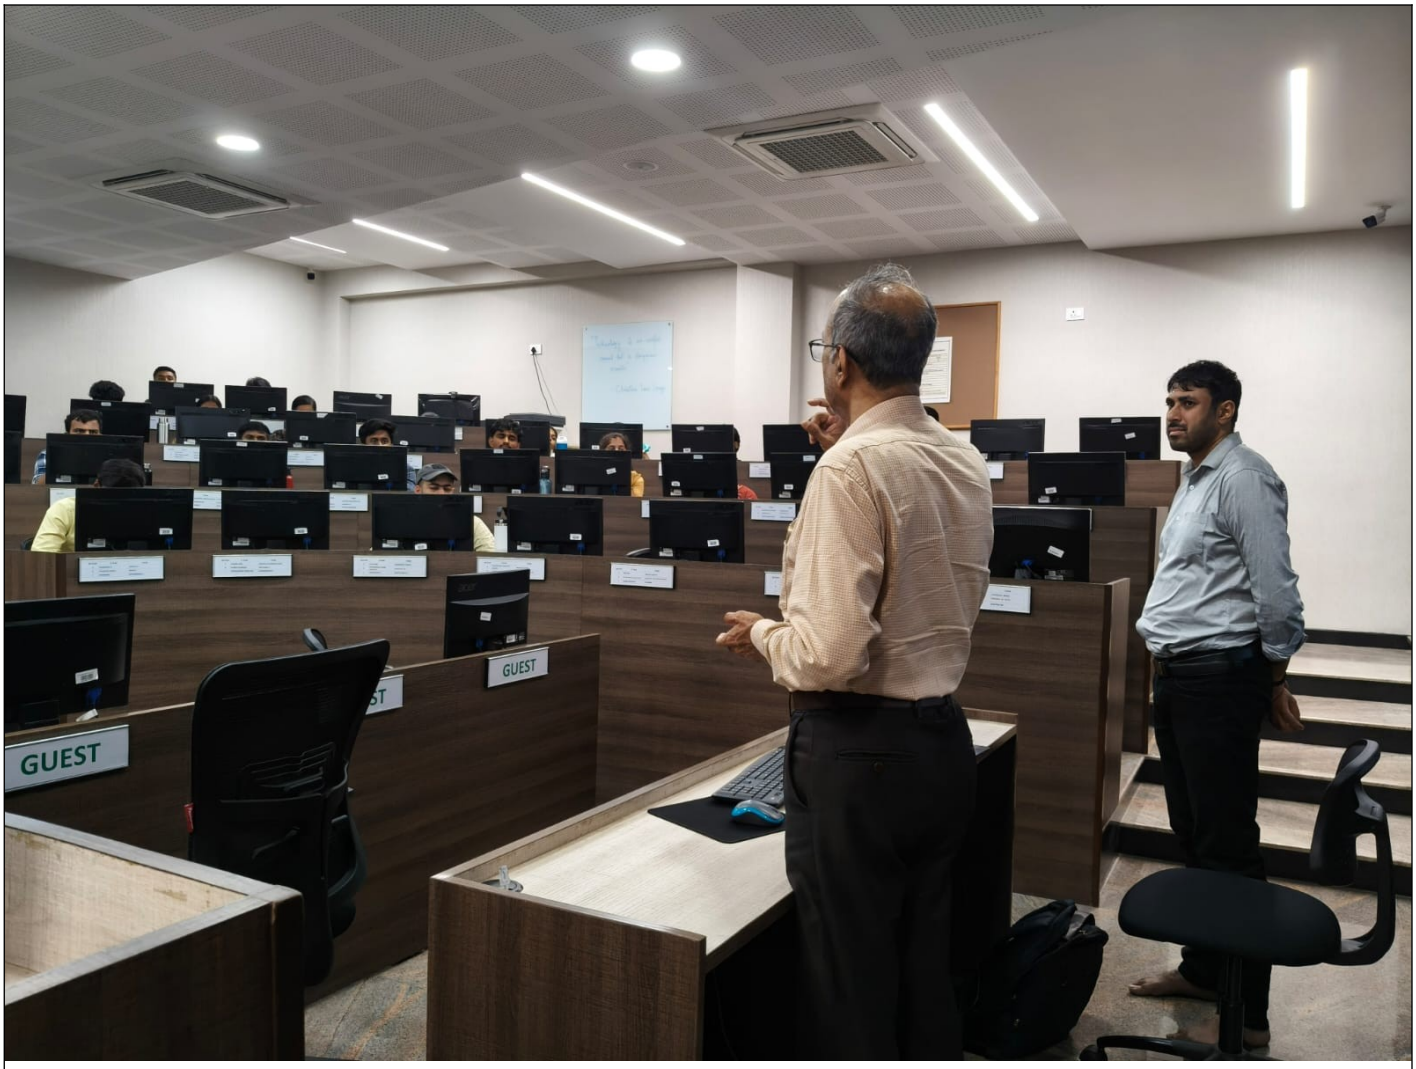

Key Takeaways from the Session

- Students gained a foundational understanding of AI and its practical applications.
- Enhanced awareness of AI-driven transformations across industries.
- Learned how AI tools can improve efficiency, creativity, and decision-making.
- Developed insights into future career opportunities in an AI-enabled environment.
- Understood the importance of ethical and responsible AI usage.
- Increased confidence in leveraging AI technologies for academic and professional growth.

Profile of the Resource Person

Mr. Vignesh Prasanna is the Co-founder of the Taru Initiative, an AI capability-building initiative under Astutix Learning Pvt. Ltd. He specializes in enabling organizations, educational institutions, and non-profit organizations to effectively adopt and leverage Artificial Intelligence for enhanced productivity and innovation.

With extensive experience in designing and delivering AI learning programmes, Mr. Vignesh has been actively involved in building AI capabilities across diverse sectors. His expertise includes developing AI applications for learning and business environments, conducting hands-on workshops, and mentoring participants in the practical application of AI technologies. He is particularly known for simplifying complex AI concepts through experiential learning and real-world business use cases.

Through the Taru Initiative, he contributes to building AI-ready workforces by promoting safe, ethical, and responsible AI practices while equipping learners with industry-relevant skills in advanced prompting, Agentic AI, workflow automation, and AI-assisted decision-making.
