

Report on Exclusive talk on “Using generative AI for Strengthen and Speed Learning.”

Date: 23rd August, 2024

Venue: Conference Hall, RVIM, Bangalore.

Time: 10.30 AM - 12.30 PM

Event : Guest Lecture

No. of Participants: 200

**Event Coordinators:
Dr.Sumera Aluru & Dr.Jahnnavi,**

Overview of the Event :

Dr. Barabara had pondered upon the essentials of learning and focused on forming deep patterns which will manifest only when the retrieval practice is conducted regularly. She spoke extensively about working memory and long-term memory while explaining features and advantages. She was imperative about the focused learning and diffused learning practices. She drew analogies to prove the power of teaching using analogies. Dr.Oakley also provided a bird 's-eye view of the whole gamut of generative tools that can make teaching and learning very effective. She provided enriching insights with a comparative and holistic understanding of various generative AI applications available on open-access platforms.

Event Details

The event started at 10.30 AM with an introductory speech by Dr.Anupama Malagi. An engaging session by Barabara Oakley for two hours where she talked about the art of learning to learn by leveraging on the working of neurons of our brain was an enriching experience for all the participants. She briefly outlined the education trends in 2050, viz., online learning, Adaptive Learning, AI in learning, and Shifts in teacher roles in virtual and online learning modes.

Followed by the session, Dr.Purushottam Bung, Director, RVIM addressed the participants. The event was facilitated by Coursera and the team includes – **Ms. Prashasti Rastogi**, Senior Director, Education and Management; **Mr. Karun Jain**, Enterprise Account Director, and **Mahesh Kolishetty**, Senior Manager-Customer Success. Ms. Rastogi also addressed the gathering on this occasion.

Q & A Session

Following Ms. Oakley's talk, a fruitful question and answer session was deliberated to clarify certain points viz., how AI can be disruptive yet inevitable in academic and research endeavours, what are the various AI tools that can productive contribute and facilitate the teaching, learning and research processes and above it was re-emphasised that the only way of training your brain is through repetition and reinforcement of content.

Course Takeaways: The guest delivered an exclusive talk to the RVIM audience, while the major takeaways from the session were –

Self-guided Personalised Learning

Immersive Learning

AI& Data Driven Insights

Community Based Learning

Flexible Class Structures

Focus on skills and Life Long Learning
