Agenda Point no. 5

Introducing Digital Valuation from the forthcoming academic year

- Deployment of High speed scanners. Thus avoiding physical storage of answer scripts
- Direct entry of marks in the SAP portal by the Examiners
- Manual coding and decoding is not required
- Speed up the examination process

Agenda Point no. 6

Using block- chain technology for verification of student credentials by CERT ONCE

- Organisations were sending certificates and grade cards (scanned copies) of the students to the college for verification. The process used to get delayed as these documents would not reach the concerned authorities in the college on time and this would affect **document verification process of the students**.
- To eliminate this delay and make the process seamless, we have signed up with CERT ONCE organization, which is a digital document verification firm using **block chain technology**.
- The transcripts will be made available in digital form to CERT ONCE and CERT ONCE will verify the credentials using Block chain technology

Agenda Point no. 7

Seek suggestions regarding events that we can host as part of Silver Jubilee Celebrations

1. To host **UNESCO APEID** (Asia Pacific Program for Educational Innovation for Development) Meeting in Bangalore (India chapter) where-in representatives from 34 countries from Asia Pacific countries will participate.
2. Organize an **Alumni Meet** and the **Celebration** on a bigger scale
3. Organize one **student centric mega event** like; **Management Fest, Ancient Indian Games Tournament**
