Event : Certification Course

No. of Participants: 120

Event Coordinators: Prof: Payal Jindal, Ms. Lakshmi S., Prof. Pooja Takalkar, Prof. Nagasubba Reddy.

The International Taxation and Technology course was successfully conducted at RVIM from August 6th to December 12th, 2024. This intensive and highly engaging program aimed to equip participants with theoretical knowledge and practical skills in the field of international taxation and technology applications.

Course Facilitators

The course was facilitated by two faculty members:

1. **Ms. Pooja Takalkar** – conducted classes for US Partnership, US Corporate and US Individual Taxation.
2. **Mr. Nagasubba Reddy** – Conducted classes for Power BI.

Course Syllabus

The program covered four key areas, providing a comprehensive understanding of taxation and its integration with technology:

1. **US Partnership Taxation**
 - Overview of partnership structures in the US
 - Tax compliance and reporting for partnerships
 - Profit allocation and tax implications
2. **US Corporate Taxation**
 - Corporate tax structures and regulations in the US
 - Tax planning strategies for corporations
 - Filing and compliance requirements
3. **US Individual Taxation**
 - Key tax principles for individuals in the US
 - Filing requirements and deductions
 - Tax planning for expatriates and residents
4. **Power BI**
 - Introduction to Power BI for financial analysis
 - Visualizing tax data for better decision-making
 - Building interactive dashboards and reports

Highlights of the Course

- The course combined lectures, case studies, and hands-on practice sessions to ensure participants gained practical exposure.

- Live demonstrations of Power BI were conducted to help participants visualize and analyze taxation data effectively.
- Regular assessments and feedback sessions ensured active learning and participant engagement.

Conclusion

The International Taxation and Technology course at RVIM was a resounding success. Participants gained critical insights into US taxation systems and the use of advanced tools like Power BI to simplify and optimize taxation processes. The knowledge and skills acquired during the course will undoubtedly help attendees excel in their professional careers in the field of international taxation and technology.
