VISIT TO DELHIVERY HUB, BENGALURU IV SEMESTER

DATE: 1-7-2024	Firm: Delhivery
Time: 7.30am to 5.00pm	Semester & Section: IV semester SCM supply chain students
No. of Participant : 43	Event Coordinator: Prof. Anitha BM Dsilva, Prof. CS Venkatesh, Dr. Vinay KS
Objectives: <ul style="list-style-type: none">• Understanding Operational Processes: To gain insights into the end-to-end supply chain operations, including logistics management, warehousing, and last-mile delivery strategies.• Exploring Technological Integration: To study the role of advanced technologies such as automation, AI, and data analytics in optimizing supply chain efficiency and ensuring timely delivery.• Learning Industry Best Practices: To observe and understand industry standards, best practices, and innovative approaches employed by Delhivery in managing large-scale supply chain networks.	

Subject: Supply Chain Management

Faculty Feedback on the Visit to Delhivery Hub

1. **Informative Experience:** "The visit provided students with valuable insights into the intricacies of supply chain operations and logistics management, bridging the gap between academic concepts and real-world applications."
2. **Exposure to Technology:** "It was impressive to see how Delhivery leverages advanced technologies like AI, automation, and data analytics to enhance operational efficiency. This exposure will help students understand the significance of technological integration in supply chain management."
3. **Practical Learning Opportunity:** "The hands-on understanding of warehousing, inventory management, and last-mile delivery offered during the visit has added a practical dimension to the students' learning, which is crucial for their professional growth."

4. **Professional Engagement:** "Interacting with industry professionals was a valuable experience for students, helping them learn about the challenges and innovative solutions in logistics and supply chain management."
5. **Encouragement for Skill Development:** "The visit emphasized the importance of analytical, managerial, and technological skills for careers in supply chain management, motivating students to focus on these areas."

Outcome of the visit

The visit to the Delhivery Supply Chain Hub was a highly enriching experience, providing students with practical insights into the dynamic field of logistics and supply chain management. By observing real-time operations such as inventory handling, warehousing, and last-mile delivery processes, students gained a deeper understanding of how theoretical concepts are applied in the industry. The exposure to advanced technologies like automation, data analytics, and AI demonstrated the critical role of innovation in streamlining logistics operations. Additionally, the interaction with industry professionals offered valuable perspectives on tackling challenges and implementing efficient solutions. Overall, the visit fostered professional learning, bridged the gap between academics and industry, and motivated students to develop essential skills for their future careers in supply chain management.
