

Title	
Supply Chain Planning, Demand Forecasting and Material Planning using Oracle ERP	
Date: 16th April 2025	Venue: RVIM Seminar Hall
Time: 3.30 pm—4.30 pm	Event : Supply Chain Planning, Demand Forecasting and Material Planning using Oracle ERP
No. of Participants: 45	Event Coordinators: Prof. Venkatesh C S

a) Objectives of the event:

The objective of the session was to provide students with a comprehensive understanding of supply chain planning and its critical components—demand forecasting and material planning. The event aimed to help students appreciate how accurate forecasting and effective planning contribute to cost control, timely delivery, and overall organizational efficiency.

b) Event Details

c) Brief description of the event

A focused academic–industry session was conducted covering key concepts of supply chain planning, demand forecasting techniques, and material planning processes. The resource person explained various forecasting methods, factors influencing demand, and the role of data in planning. The session also addressed material requirement planning (MRP), coordination between departments, and real-time industry scenarios to bridge theory with practice.

The talk was on how Master Planning and Supply Chain planning functions may be implemented using an ERP system. A Case study of a large US retail company was used to illustrate the functionality

d) Brief profile the resource person/s

Guest Names	Designation	Team
Nikhita Kalmane	ERP Consultants	Trinamix
Chethan KN	ERP Consultants	Trinamix

Both of the speakers are RVIM alumni and working in Trinamix as supply chain consultants involved in ERP implementations (Oracle)

e) Outcome attained

Students gained practical insights into how demand forecasting and material planning support effective supply chain decision-making. The session enhanced their analytical thinking, improved understanding of planning tools and methodologies, and prepared them for roles in supply chain, operations, and planning functions by aligning academic knowledge with industry expectations.
