For a student entrepreneur, it is very crucial to have a growth mindset because it creates a belief that your abilities and intelligence can be developed through hard work, dedication, and a willingness to learn from your mistakes, that you can overcome challenges, embrace failures, and achieve your goals.

With this objective, RVIM Centre for Innovation, Entrepreneurship, and Incubation conducted a Business Plan Poster competition and a Bootcamp on March 10, 2023.

And to conduct this effectively we had with us Giridhar Soundararajan from Barrel Motors, who encouraged the budding student entrepreneurs to face many challenges, such as developing a business plan, securing funding, and building a

team. Instead of shying away from these challenges, embrace them as opportunities to learn and grow.
