Programme name: Practical applications of IOT

Number of hours: 1 hour

Number of attendees: 180 2nd semester students

Timing and Date: Sec A: 10.30-11.30 AM (3rd October), Sec B: 2.30-3.30 PM (3rd October, 2024), Sec C: 12.40-1.40 PM (4th October, 2024)

Venue: Business Analytics lab, RVIM, Bangalore

Faculty: Prof. N. Nagasubba Reddy & Dr. Swaraj S Bharti

About the topic: IoT, or the Internet of Things, refers to the connection of everyday objects, or “things,” to the internet, allowing them to collect, transmit, and share data. This interconnected network of devices transforms previously “dumb” objects, such as toasters or security cameras, into smart devices that can interact with each other and their environment.

Objectives:

- The students must understand conceptual and practical understanding of Internet of Things used in different field such as agriculture, medical, automation etc.
- Exploring the advancement of IoT in different field such as Marketing, Finance IIR, Supply chain Management, Agriculture and Healthcare etc
- Case studies and puzzle of IoT from the concepts

Resource person profile:

- Mr. Basavaraj Nagaraju (COO, RV Skills, Bangalore): He is co-founder in quite few startups, having more than 28+ years of industry experience across Telecom, EdTech, Renewal Energy and VLSI. He has passion for teaching and mentored startup founders besides being an advisor in few companies. He has done is MBA from SNHU, USA and ITM, Mumbai. He is also an alumni of BMS Engineering College.
- Ms Nagma comes with about 20 years of experience working in corporate and skill development. She holds a degree in Electronics Engineering and has worked at companies like Cranes software international, IBM, Vimarshana Technologies and IDS Technologies. She is associated as Senior Design Engineer with RV-Skills from past 6 year and working in Embedded and Automotive Division.

Topics covered:

- IoT

Target Audience:

MBA students
