20. The overall quality of teaching-learning process in your institute is very good.

165 responses

21. Give three observation / suggestions to improve the overall teaching E- learning experience in your institution.

The Overall Feedback about the Institution from the students is very good. Here are compiled the overall Feedback & Suggestions:

- Bring more number of industry experts & Teaching more technically in laboratory.
- Concepts and visual presentation of chapters are explained throughout.
- To provide classroom with Power connection for laptop and study room for studying and to do assignment
- Need to increase industrial visit programmes rather than just focusing on theories & Need to reduce the subjects
- Beyond teaching and learning required more number of extra curriculum like sports, fest and other activities taken by the college management.
- Placement opportunities for individuals has to be more than two companies
- Some faculties are extremely good in teaching, Some are needs to improve and Learning experience is good and finally Placement team doing excellent
- As an autonomous please make fast-track process in case of students having back subjects.
- The environment at the institution is very cordial
- More time for internships and social immersion program (one month for business immersion program was ok, but only two weeks for social immersion program is very less)
- Suggests to take for a industrial visit which enhances upskilling for students
- All sections should be allotted with same faculty for one subject because some section are done with all portion and concept some section will be left out with those concept that will be unfair for students and students suffer Some faculty should be changed because teaching correction allotment of internal
- Same faculty should be assigned to all the sections, it becomes difficult to prepare for the examinations.

Students Satisfaction Survey- Batch 2021-23

- It would have been better if the syllabus was discussed earlier with all the teaching faculty and then the question paper was set! It creates a confusion among students as there are different faculties for same subjects for all three section teaching different methods. So it's a suggestion to keep same teacher or else kindly discuss the syllabus ahead!
- Study Holidays for semester end exam is not enough. At least 10 days should be given us for preparation here we are not getting any and it's becomes really difficult.
- We are just 2nd semester and many of us already placed for the companies, Thank you placement team and RVIM
- Good encouragement for extra curriculum activities and Student supportive institution
- Many extra-curricular activities are arranged, leadership building activities and soft skill training is provided in the college
- Involving more practical aspects in teaching rather that concentrating more on syllabus completion.
- Quality of Teaching is Great - please continue the same
