Agreement Regarding Confidential Information, Intellectual Property, and Other Matters

Serial # : _____ Date Of Hire : ___ / ___ / _____

In consideration of my internship with International Business Machines Corporation or one of its subsidiaries or affiliates (collectively, "IBM"), and the payment to me of a stipend or other compensation related to my internship, I agree as follows:

1. I will not, without IBM's prior written permission, disclose to anyone outside of IBM or use in other than IBM's business, either during or after my internship, any confidential information or material of IBM, or any information or material received by IBM in confidence from third parties, such as suppliers or customers. Once my IBM internship ends, or at the request of IBM, I will return to IBM all property in my possession belonging to IBM or received by IBM from any third party, whether or not containing confidential information and whether stored on an IBM owned asset or a personally owned asset, including, but not limited to, electronic data, electronic files, diskettes and other storage media, drawings, notebooks, reports, and any other hard copy or electronic documents or records. I understand I am not prohibited from reporting possible violations of law or regulation to a government agency, as protected by law.

Confidential information or material of IBM is any information or material: (a) generated or collected by or utilized in the operations of IBM; received from any third party; obtained from an entity IBM acquired or in which IBM purchased a controlling interest (including information or material received by that entity from a third party); or suggested by or resulting from any task assigned to me or work performed by me for or on behalf of IBM; and (b) which has not been made available generally to the public, whether or not expressed in a document or other medium and whether or not marked "IBM Confidential" or with any similar legend of IBM or any third party. Confidential information or material may include, but is not limited to, information and material related to past, present and future development, manufacturing activities, or personnel matters; marketing and business plans; pricing information; customer lists; technical specifications, drawings, and designs; prototypes; computer programs; and databases.

(a) During my internship with IBM and six months thereafter, I will not directly or indirectly solicit, or attempt to or participate or assist in any effort to solicit, any employee of IBM to be employed or perform services outside of IBM.

(b) I agree that during my internship with IBM and for six months thereafter, I will not directly or indirectly solicit for competitive business purposes any customer with which I was directly or indirectly involved as part of my responsibilities during my internship with IBM.

2. I acknowledge that IBM would suffer irreparable harm if I fail to comply with Paragraph 2(a) or (b), and that IBM would be entitled to any appropriate relief, including money damages, equitable relief and attorneys' fees.

3. I will not disclose to IBM, use in its business, or cause it to use, any information or material which is confidential to any third party unless authorized by IBM. In addition, I will not incorporate into any product used and/or sold by IBM, any copyrighted materials or patented inventions of any third party, unless authorized by IBM pursuant to Paragraph 5.

4. I will comply, and do all things necessary for IBM to comply, with (a) the laws and regulations of all governments under which IBM does business, (b) the provisions of contracts between any such government or its contractors and IBM that relate to intellectual property or to the safeguarding of information, and (c) IBM's corporate directives, including, without limitation, policies and information technology security standards issued from time to time as well as the IBM Business Conduct Guidelines as amended from time to time.

5. I hereby assign to IBM my entire right, title, and interest in any idea, concept, technique, invention, design (whether the design is ornamental or otherwise), computer programs and related documentation, other works of authorship, mask works, and the like (all hereinafter called "Developments"), hereafter made, conceived, written, or otherwise created solely or jointly by me, whether or not such Developments are patentable, subject to copyright or trademark protection or susceptible to any other form of protection which: (a) relate to the actual or anticipated business or research or development of IBM or its subsidiaries or (b) are suggested by or result from any task assigned to me or work performed by me for or on behalf of IBM or its subsidiaries.

If, by operation of law such right, title, and interest in Developments vest in IBM upon creation, I acknowledge that such right, title, and interest belong to IBM. Also, I hereby assign to IBM my entire right, title and interest in any such Developments that were or are suggested by or a result of any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest to the extent that any such right, title and interest is not already owned by said entity.

In the case of any "other works of authorship", such assignment or ownership shall be limited to those works of authorship which meet both conditions (a) and (b) above.

California Notice: For Developments subject to California law, notwithstanding anything above to the contrary, I understand that this assignment does not apply to a Development which qualifies fully under the provisions of Section 2870 of the California Labor Code. The above provisions concerning assignment or ownership of Developments apply to Developments created while employed by IBM in an executive, managerial, professional, product or technical planning, technical, research, programming, or engineering capacity (including development, product, manufacturing, systems, applied science, and field engineering) or otherwise.

The assignment of Developments in this Paragraph 5 shall exclude any Developments in which I have a right, title, or interest and that were, prior to my internship with IBM, (1) conceived and/or made solely or jointly by me; (2) written wholly or in part by me; or (3) expressly stated in an agreement that I executed with another party which precludes an assignment to IBM (collectively, these exceptions to assigned Developments hereunder shall be known as "Excluded Developments"). Further, I acknowledge that I will not use or cause to be used, any Excluded Developments in IBM's business, research or development without a written or email authorization to do so from both my first and second line manager. For the avoidance of doubt, Excluded Developments shall not comprise any Developments that were or are suggested by or resulted from any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest, unless assignment of my right, title, and interest in the Development is governed by an agreement executed prior to my IBM internship.

I hereby identify any and all Excluded Developments which are not published in a searchable public database (e.g. United States Patent & Trademark Office). In the following table I have provided a brief non-confidential description that sufficiently identifies the Excluded Development (e.g. title of publication), the creation date of the Excluded Development, and to the extent my rights to the Excluded Development are governed by an agreement, the other named party to the agreement and the date the obligation terminates.

If I do not have any Excluded Developments to declare I have left the following table blank or have written "None," "Non/Applicable," or a similar designation.

Description of Excluded Development	Date Created	Named Party/Termination Date

Additional pages may be attached, as appropriate to identify other Excluded Developments, if any. IBM requires you to disclose Excluded Developments in this Paragraph 5. If you wish to interest IBM in any Excluded Development, you may contact the Intellectual Property and Licensing Department at Corporate Headquarters, which will provide you with instructions for submitting it to IBM.

6. In connection with any of the Developments assigned by Paragraph 5: (a) I will promptly disclose them in writing to the IBM Intellectual Property Law Department; and (b) I will, on IBM's request, promptly execute a specific assignment of title to IBM or its designee and do anything else reasonably necessary to enable IBM or such designee to secure a patent, copyright or other form of protection therefore in the United States and in other countries. In addition, I agree to promptly notify the IBM Intellectual Property Law Department in writing of any patent or patent application in which I am an inventor but which is not assigned by Paragraph 5 and which discloses or claims any Development made, conceived, or written while I am employed by IBM. I also agree to promptly notify the IBM Intellectual Property Law Department if, after my IBM internship ends, I am contacted by anyone or any entity outside of IBM regarding any transaction, legal or governmental proceeding, litigation or other legal dispute concerning or relating to any of the Developments assigned by Paragraph 5.

7. IBM and its licensees, successors, or assigns (direct or indirect) are not required to designate me as an author of any Development which is subject to Paragraph 5, when it is distributed, publicly or otherwise, or to secure my permission to change or otherwise alter its integrity. I hereby waive and release, to the extent permitted by law, all rights in and to such designation and any rights I may have concerning modifications of such Developments.

I understand that any rights, waivers, releases, and assignments herein granted and made by me are freely assignable by IBM and are for the benefit of IBM and its subsidiaries, licensees, successors, and assigns.

8. I agree that IBM, its services providers and other third parties authorized by IBM will collect, use, store, make available to those who have a need-to-know, and otherwise process my personal information to establish, maintain and terminate my internship relationship with IBM and for other legitimate business purposes, anywhere in the world. Such personal information, whether provided to IBM, its service providers, or third parties directly by me or otherwise gathered, includes my name, photo, contact information, skills, compensation, performance, usage of IBM assets, background check results, bank account information, and disability or medical information.

I will not use for unauthorized purposes nor share with any unauthorized parties, either during or after my internship, any personal information about others to which I may have access during my internship at IBM.

IBM provides numerous opportunities for social computing through blogs, wikis, social networks, virtual worlds and other social media. I agree to comply with all IBM policies and practices regarding use of social computing tools and I understand that I am personally responsible for the content I post on any social computing tools (whether on IBM's internal platforms or on third party sites) and that any information I post, including any of my personal information, may be made broadly available to others, potentially inside or outside IBM, who have access to these tools.

9. The term "subsidiaries," as used in this Agreement, includes any entity owned or controlled, directly or indirectly, by International Business Machines Corporation.

10. This Agreement supersedes all previous oral or written communications, representations, understandings, undertakings, or agreements relating to the subject matter hereof, except as expressly agreed otherwise by IBM in writing. Any waiver of a term in this Agreement and any amendment to this Agreement may only be made in a writing signed by the Senior Vice President of Human Resources for International Business Machines Corporation and myself.

11. This Agreement shall be governed by the laws of India. If any provision of this Agreement is unenforceable at law, the remainder shall remain in effect. I recognize that any violation of my obligations described herein would cause IBM to suffer irreparable harm and can result in appropriate action, and any other appropriate relief for IBM including money damages, equitable relief and attorney's fees.

12. This Agreement shall constitute a part of my terms of internship with IBM and is executed contemporaneously with my offer of internship with IBM.

My agreement, and my acknowledgment of receipt of a copy of this Agreement, are indicated by my signature below.

COVID-19: IBM Initiatives for Employees and Communities

As we navigate the COVID-19 pandemic, IBM has taken a series of initiatives to help and support our employees and their family members in this challenging environment. The health and safety of IBMers, partners, and clients is our top priority.

We have put together a comprehensive support plan for our employees and their families to tide through this pandemic.

Employee Well-being and Safety

- **Vaccination for all IBMers:** Vaccination camps will be opened (in line with Government regulations and availability of vaccines) in all major cities with IBMer populations. IBMers and their family members will have the option of getting vaccinated at hospital centers or camps at selected IBM locations. We are working closely with the concerned authorities on this
- **Dedicated 24X7 Medical Helpline with Portea:** IBM has launched a dedicated helpline through Portea Health Care Services - for a variety of services including doctor consultation, medical/home care services, and testing services. This helpline is the first point of contact for support for any medical help.
- **Access to Oxygen Concentrators**
IBM has procured oxygen concentrators to support IBMers and their family members. We have partnered with Portea Health Care Service to deploy these oxygen concentrators across Bangalore, NCR (Delhi, Gurgaon, Noida), Kolkata, Chennai, and Hyderabad.
- **Eldercare Support with Samarth:** IBM has partnered with Samarth, one of India's leading organizations supporting the elderly by creating a COVID care system. Samarth will help the elders deal with the pandemic by providing 24/7 emergency assistance, home care resources, medicines, doctor tele-consultations, food services, oxygen, and requirement for other equipment as needed.
- **COVID Care Center:** We have worked with Apollo Hospital to offer medically supervised "step down" facilities at designated hotels in every major city where IBMers and immediate family members can quarantine in case it's not feasible at home.
- **Emergency Transport for Medical Needs:** We are offering an emergency transport facility 24x7 for medical requirements for both employees and their immediate family members who are COVID-19 positive (for transport to a medical facility) and those who are COVID-19 negative (for procuring medical supplies or attend to impacted family members).
- **Additional Insurance Coverage:** IBM is providing additional insurance coverage for each insured employee and their covered dependents (spouse and children) for up to Rs. 5 Lakhs per member covered.
- **Meal Delivery Service**
We have tied up with HungerBox for the delivery of freshly prepared meals, ensuring the highest levels of hygiene and safety measures. The service is currently available in Bangalore, NCR, Hyderabad, Chennai, Kolkata, Mumbai, Pune, and Vishakhapatnam.

Leverage the Power of Tech for good

- **COVID Assist:** We have launched COVID Assist, a Watson Assistant powered AI bot, to channelize the requests around critical resources such as ambulance, oxygen, medicine, hospital beds, in an efficient manner. It will also help you connect with the IBM Squad volunteers on ground.

Mobilizing the collective power of the IBMers

- **IBMer volunteer COVID squads :** We have organized squad groups staffed by IBMer volunteers to take service requests and match them to verified sources of available resources - Hospital Beds, ICUs, Oxygen requirements, ambulances, medicines, and more. With over 2000 volunteers already signed up, this is really making a difference to quickly triage requests and ensure that needs are matched to resources available nationally.
- While we do this, employee health and well-being remain a key priority for us. We have set up several **employee support groups across cities** to provide employees with a platform to discuss issues, challenges, concerns and coping mechanisms such as managing stress, staying active and promoting self-care. Covid Warrior stories to energise teams.
- IBM has partnered with [United Way of India](#) to drive an employee giving campaign. Employees can donate financially to the NGO and they in turn are working with several partners at the ground level to provide critical and emergency care for the community.
- IBMers are volunteering to become first responders on Covid-19 helplines through a collaboration with [StepOne](#). StepOne is an NGO having an interface with 18 state governments and is helping to train & deploy volunteers to respond to queries on the government helpline.

Leveraging our voice and influence to rally global support

- IBM is playing a key role in **Global Task Force on Pandemic Response** launched by the [US Chamber of Commerce](#) to aid India and other Covid-19 Hot-Spots. This includes Sourcing, shipping and delivering 1,000 ventilators; 25,000 oxygen concentrators and working with local partners to fund emergency hospital beds in communities where our teams live and work.

In addition, we are also closely engaged with the government and government agencies in India to offer our support and we are ready to do more.

Given the dynamic pandemic situation, IBM is constantly revising and updating any initiatives it has put in place to respond to the pandemic, And any of these programs and policies may be changed or withdrawn by IBM at its sole discretion. Please reach out to your HR contact to understand the current measures in place at IBM.
