Centre For Business Analytics - RVIM
on
Applied Artificial Intelligence: Introduction to Stock Market Price Prediction with AI
By
Mr. Mithun D J
Coordinator – Business Analytics Program

Date: 10th October, 2023	Venue: Online over zoom – Business Analytics Lab
Time: 02:30 pm to 04:30 pm	Event : Webinar
No. of Participants: 413	Event Coordinator: Mr. Mithun D J, Dr. Jahnavi, Mr. Nagasubba Reddy & Ms. Ankita Shrivastava

Objectives

- Explore Real-world Implementations.
- Understanding Algorithmic Techniques.
- Optimizing Business Outcomes.

The flow of the Event

- Introduction and information on Applied Artificial Intelligence.
- Hands on exposure.

Outcome Achieved:

The webinar on stock market price prediction using AI successfully introduced participants to the practical applications of artificial intelligence in financial markets. Attendees gained a clear understanding of how AI-powered tools and models are transforming the way stock price trends are analyzed and forecasted. The session covered key concepts such as data preprocessing, feature selection, and the fundamentals of building predictive models, enabling participants to appreciate the capabilities and relevance of AI in this field.

During the webinar, practical demonstrations showcased the use of AI techniques to analyze market data and predict price movements with accuracy. These examples helped attendees bridge the gap between theoretical knowledge and real-world applications. The interactive approach of the session ensured that participants not only learned about the technical aspects but also understood how to apply these methods effectively in investment decision-making processes.

By the end of the session, participants were inspired to explore the field of AI-driven financial analytics further. The insights gained from the webinar encouraged them to consider how these advanced methodologies could be integrated into their personal or organizational financial strategies. Overall, the

event provided a solid foundation for those interested in leveraging AI for stock market analysis and laid the groundwork for continued learning and innovation.
