

World Animal Day

RVIM sensitizes students on various matters relating to cruelty to animals. In 2016 posters were displayed and discussions and thoughts were recorded. The information was posted in the website of international organization working towards animal welfare. In 2018 students worked to create a floor art to convey the message of prevention of cruelty to animals. WhatsApp messaging service was used to communicate to all the students.

Responding to the Whats App message students joined to create a floor art
