9. ORGANISATIONAL CHART

10. STUDENT FEEDBACK MECHANISM ON INSTITUTIONAL GOVERNANCE/FACULTY PERFORMANCE

Procedure

As part of the measurement and monitoring mechanisms of the teaching process, Head of the institution arranges to have each faculty evaluated by his/her students both at the beginning of the semester as a part of formative evaluation and at the end of the semester as a part of summative evaluation. The evaluation data is recorded as per various parameters like Punctuality & Discipline, Completed syllabus of the course in time, Command over the subject matter, Facilitating class room discussion, Skill of linking subject to real world experience/cases, Refers to latest developments in the field, use of innovative teaching methods & tools, Overall quality of course docket, Use of case studies/articles for discussion, Helping approach towards varied academic interests of students, Approach towards developing professional skills among students, Fairness in evaluation and timely feedback, Inspires students for ethical conduct. After this data is analyzed, a consolidated report is prepared and given to faculty. The concerned faculty is advised appropriately for further improvements based on the consolidated report by the head of the institution. The following flow chart describes the procedure.

11. Grievance Redresal mechanism for students:

- The grievance redresal mechanism is a continues process and it is through mentor process.
- The Methodology for the two phases of the mentor process is as described below:
- The designated coordinator and other mentors implement the mentor process. Each faculty acts as the mentor and interacts directly with the students placed in his/her charge.
- The newly admitted students of the first semester fill up a student information sheet. Based on this data the coordinator- mentor process, will assign the students to Mentors.
- Each mentor is made responsible to around 20-25 students and to the extent possible, the mentor will be the one teaching some subject/s. In case the assigned mentor does not teach any subject for the assigned students, he/she will consult the faculty teaching the subjects for them for necessary information
- If a mentor quits the institute for whatever reason, the students under his/her care are assigned suitably to other available mentors and the relevant records are also transferred appropriately.
- A mentor assigned to a student in the first semester generally continues to be the mentor for that student until he/she completes the course or leaves the institute before course completion for whatever reason.

IMPLEMENTATION

- The mentor maintains and updates the student information sheet with the attendance information, performance in the internal assessment tests, and performance in the university examinations.
- Two progress reports (format 3) are sent to the parents/guardians, one after the first test evaluation and second after the second test evaluation are completed. The mentors file the acknowledgements received.
- Further, the mentor meets all students under his /her care at least three times in a semester once each after every internal test He may also meet them whenever the need arises and discuss their problems. He keeps a record of all such interactions and also keeps the designated coordinator informed of any general problems faced by the students. These problems will be discussed with the Director in the monthly meetings.

11. Grievance Redressal Mechanism for faculty & staff

- HOD convenes a meeting of all the staff members of the department, usually once in fifteen days to discuss the progress of the implementation of the QMS in the department. Any other administrative issues related to the functioning of the department may also be discussed in such meetings. Non-teaching staff members may also be invited to attend such meetings when required. The grievances of the staff if any will be considered seriously and necessary solutions are suggested for their redressal. In case of certain serious issues. A committee will be formed to submit the measures for the redressal. The minutes of meeting are recorded.

- At the institute level the Director convenes a meeting of all staff, usually once in a month, to discuss the progress of the implementation of the QMS in the institute. Administrative issues as well as any other issues related to the functioning of the institute are also discussed in such meetings. Grievances and the measures suggested will be considered by the Director and further guidelines will be given for smooth functioning of the Institute.
