EVENT REPORT

Visit to Delhivery Warehouse

Date: 17 - 18 June 2025	Venue: Delhivery Hoskote Warehouse, Hoskote, Bengaluru Rural
Time: As per approved visit schedule	Event: Industrial Visit
No. of Participants: 45 Students	Event Coordinators: Dr. Vinay K S and Prof. Pooja R Takalkar
Specialization: Supply Chain Management	Programme: MBA

1. Objectives of the Event

- To provide practical exposure to warehouse operations and supply chain management practices in a large logistics facility.
- To help students understand inbound, sorting, storage, dispatch, transportation coordination and last-mile delivery support activities.
- To connect classroom concepts such as logistics network design, hub-and-spoke distribution, material handling and warehouse layout with industry practice.
- To sensitise students to safety, discipline, process flow, documentation and technology-enabled tracking in modern logistics operations.
- To enhance industry readiness among Supply Chain Management specialization students through experiential learning.

2. Event Details

a. Brief Description of the Event

RV Institute of Management organised an industrial visit to Delhivery Warehouse, Hoskote, for MBA students of the Supply Chain Management specialization on 17 and 18 June 2025. A total of 45 students participated in the visit under the guidance of the faculty in-charges Dr. Vinay K S and Prof. Pooja R Takalkar.

The visit was planned to provide hands-on exposure to warehousing and logistics operations. Students observed the movement of goods, loading and unloading activities, docking bays, vehicle coordination, shipment handling areas and the overall functioning of a modern logistics hub. The visit enabled students to understand how warehouse operations support faster order fulfilment, route planning, consolidation and dispatch in supply chain networks.

During the visit, students interacted with the operational team and understood the importance of time management, process discipline, manpower coordination, safety compliance, technology support and documentation in warehouse management. The event helped students relate theoretical concepts of logistics, inventory flow, distribution channels and supply chain integration with real-time industry practices.

b. Brief Profile of the Resource Person/s

The resource persons for the visit were members of the operational and warehouse management team at Delhivery Hoskote Warehouse. They oriented the students on the basic functioning of the facility and explained key processes followed in receiving, sorting, handling, dispatch and transportation coordination. Their practical insights helped students understand the role of warehousing in creating speed, reliability and efficiency in logistics operations.

c. Outcome Attained

- Students gained practical understanding of warehouse layout, docking operations and movement of goods within a logistics facility.
- Students observed the importance of speed, accuracy and coordination in logistics and supply chain operations.
- Students understood the role of technology, tracking systems and documentation in warehouse management.

- Students were able to connect classroom concepts with industry practices in logistics, warehousing and distribution.
- The visit improved the students' awareness of career opportunities and operational roles in the logistics and supply chain sector.
