Faculty Contribution Note

The *Hedging in Forex* course was collaboratively designed and delivered by **Dr. P. Srikanth** and **Dr. Sumera A**. The division of modules ensured balanced expertise:

- **Dr. Srikanth** focused on foundational concepts, implementation, and advanced hedging techniques.
- **Dr. Sumera A** contributed to strategy tools, evaluation, and behavioral aspects.
- The **Final Exam** was jointly curated to comprehensively assess learner understanding across all modules.

This collaboration reflects RVIM's commitment to **team-based pedagogy, industry-aligned content, and digital learning integration**. The course strengthens institutional capacity in international finance and risk management, while providing students with **globally recognized e-content** through Coursera.

Outcomes for IQAC Reporting

- Enhanced faculty expertise in digital pedagogy and e-content development.
- Strengthened institutional use of Coursera's licensed platform for student learning.
- Provided MBA students with structured exposure to forex risk management and hedging strategies.
- Demonstrated collaborative teaching practices between faculty members.
- Contributed to RVIM's NAAC/Accreditation evidence of e-content creation and dissemination.
