Report on Remedial Classes for Slow Learners

Date: September 2025 (Operations Research) and May 2026 (Managerial Accounting & Financial Management)	**Venue: Conference Hall, ET Lab, Seminar Hall, RVIM, Bangalore.**
Time: 9:00 AM TO 5:30 PM	**Event :** Remedial Classes for Slow Learners
No. of Participants: 22	**Event Coordinator: Dr. Sumera A, Dr. Vinay KS, Prof. Pooja Takalkar.**

Objective: To enhance the academic performance of students requiring additional learning support, remedial classes were conducted for the subjects Operations Research during September 2025, and Managerial Accounting and Financial Management during May 2026. The initiative was undertaken to bridge learning gaps, strengthen conceptual understanding, and improve students' confidence in handling subject-specific concepts and applications.

The students attending the remedial sessions were identified based on their performance in Continuous Internal Assessments (CIA), assignment submissions, classroom participation, attendance, and faculty observations. The sessions focused on revisiting fundamental concepts, clarifying doubts, and providing individual attention to students who required additional academic assistance.

The remedial classes in Operations Research concentrated on topics such as Linear Programming Problems, Transportation Models, Assignment Problems, Decision Theory, Network Analysis, and other quantitative techniques. Faculty members explained the concepts through step-by-step problem-solving methods, enabling students to understand mathematical models and their practical applications.

Syllabus structure:

For Managerial Accounting, the sessions emphasized Financial Statement Analysis, Ratio Analysis, Marginal Costing, Budgetary Control, Standard Costing, and Variance Analysis. Additional numerical practice and concept revision helped students strengthen their understanding of accounting principles and managerial decision-making techniques.

The remedial classes in Financial Management covered essential topics including Time Value of Money, Capital Budgeting, Cost of Capital, Capital Structure, Working Capital Management, and Financial Decision-Making. Students were provided with additional numerical exercises, practice problems, and individual guidance to reinforce key financial concepts.

The sessions adopted an interactive and learner-centric approach through concept revision, numerical problem-solving, practice exercises, one-to-one doubt clarification, peer discussions, and continuous formative assessment. Supplementary study materials and question banks were also shared with the students to facilitate independent learning.

Outcome: The remedial classes resulted in noticeable improvement in students' conceptual understanding, classroom participation, confidence, and performance in subsequent internal

assessments. Students demonstrated greater clarity in solving numerical problems and actively engaged in classroom discussions after the intervention.

Overall, the remedial classes served as an effective academic support initiative by addressing individual learning needs and reducing learning gaps among slow learners. The focused guidance and continuous mentoring contributed significantly to improving students' academic performance and fostering a stronger foundation in the respective subjects.

Below is a **NAAC-ready Special Remedial Class Timetable** comprising **8 sessions for each subject (24 sessions in total)**. Each session is **1 hour**, making it **8 hours per subject**.
