R.V. INSTITUTE OF MANAGEMENT Bangalore

Give three observations / suggestions to improve the overall teaching-learning experience in your institution.

126 responses

- More Industry approach to be integrated and better support with growth opportunities is required - Thank You
- Teaching good, continue
- After mid-term the portion should be covered again as a revision before external exams
- excellent teaching
- The semester flow should be properly designed and reduce events at the end, so that teachers don't have to rush the classes
- Overall, I have been highly satisfied with the teaching learning experience at the institution. The academic framework, faculty support, and exposure to practical learning have provided a very solid foundation for my growth
- Engage students more in discussions on current trends.
- Everything is good.
- All the teaching is at par but the best. Add few more innovative teaching methods as part of experiential learning
- Overall comprehensive learning experience
- Add more of industry relevant tools in specialization subjects like Blue Yonder, O9 solutions etc.,
- Suggestion to include break before exams so that we can stay at home and study for exams. Reduce hall ticket process.
- Focus towards diverting the curriculum to more practical and real world corporate/ business requirements will surely help.
- Require more of placement training from 1st sem on aptitude and also towards personal skills. More concentration towards the placement should be taken and more of infrastructure to be involved like AC to be installed in classrooms

- Needed more of practical exposure
- Focus of sharing additional knowledge which can be used in industries
- Focus on technical knowledge which helps on placement instead of nonsense things like yoga ,and other nonsense things which college made mandatory
- More market exposure
